STALCO+
PERFECT

BUILDING TRUST

STALCO is a family company with Polish capital only. Thanks to its people, their friendship, and huge commitment, we have been in business non-stop since 1998.

The milestones of our corporate philosophy and ensured success are high quality of our solutions and strict focus on customer needs.

We are a professional business for which the quality of products and service are top priorities. This is a value for which we take a number of actions to satisfy the ever-increasing, precisely specified expectations of customers who operate on the domestic and international markets.

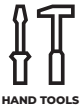

Our mission of **"Building Trust"** relies on long-term business with our partners and improvement of their business efficiency.

Consistently developing its relationships with customers, suppliers and business partners, Stalco maintains high quality of its products and services, which allows the company to continuously increase its share of the construction market. The company has also been successfully expanding and winning new markets both at home and abroad.

10 PRODUCT CATEGORIES

Stalco is a trading and manufacturing operation. Our trading business is the sales of tools in 10 product categories. Our manufacturing business produces fasteners, boards and levels, as well as shelving rack systems.

Today, Stalco is ready to compete with the largest corporations in the world.

We carry our products in 2 lines - **Stalco and Stalco Perfect**. By addition of the Stalco Perfect line of professional articles, Stalco stands out with superior quality and has been consistently perfecting its products. Stalco provides products which perfectly meet the expectations of professional, specialised, and retail customers.

STANDARD PRODUCT LINE

A perfect balance of quality and price. Thanks to their smart design and latest technologies coupled with premium quality components, these products not only do work great in daily DIY and work at home, but also provide a great alternative for contractors who seek tools of high quality at an attractive price. This product line is ensured with a long service life and work safety.

PROFESSIONAL PRODUCT LINE

The Stalco Perfect line are products designed with painstaking attention to detail and components of superior quality from global manufacturers. Constant quality control is natural to the manufacturing process of these products, along with their high durability and ergonomic qualities. These efforts have allowed to make equipment dedicated to professionals who value high quality and latest technologies just as much as they demand high strength and zero-compromise performance. The products in this line are built for heavy-duty work in extreme conditions. They ensure reliable performance for a long time to guarantee that the work done is defect-free and robust, no matter what the odds may be.

HAND TOOLS

Measuring tools

Pocket Rule

- non-slip rubber housing
- magnetic bit makes measurements easy
- nylon-coated tape with a higher resistance to abrasion
- automatic tape lock

Icon	Length x Width	Scale	Material	Lock
	3m x 19mm	1/12/72	pc	-
	5m x 25mm	1/6/48	pc	-
	7.5m x 25mm	1/6/48	pc	-

Pocket Rule

- non-slip rubber housing
- three tape folding locks

Icon	Length x Width	Scale	Material	Lock
	2m x 16mm	1/12/120	pc	-
	3m x 16mm	1/12/120	pc	-
	5m x 19mm	1/12/120	pc	-
	7.5m x 25mm	1/6/72	pc	-
	10m x 32mm	1/6/48	pc	-

Fiberglass Tape Measure

- impact-resistant housing
- made of reinforced glass fiber
- resistant to abrasion
- folding handle
- scale every 2 mm

Icon	Length x Width	Scale	Material	Lock
	20m x 15mm	1/40	pc	-
	30m x 15mm	1/32	pc	-
	50m x 15mm	1/20	pc	-

Steel Tape Measure

- non-slip impact-resistant housing
- quick and easy winding thanks to the 3:1 drive gear
- end hook equipped with an additional hook
- tape width 12.5 mm

Icon	Length x Width	Scale	Material	Lock
	20m x 12.5mm	1/40	pc	-
	30m x 12.5mm	1/32	pc	-

Steel Tape Measure

- impact-resistant plastic housing
- folded handle
- tape finished with metal hitch

Icon	Length x Width	Scale	Material	Lock
	30m x 13mm	1/12	pc	-
	50m x 13mm	1/12	pc	-

Wooden Folding Rule

- tough and resilient connection
- lock in 180° position
- scale highly resistant to abrasion
- section thickness 3.2 mm
- hidden joints

Icon	Length	Scale	Material	Lock
	1 m	1/20/200	pc	-
	2 m	1/10/100	pc	-

Water Level

- facilitates leveling between spaced points
- tight plugs prevent the outflow of water in measuring spots
- unbreakable vials with a clear scale for easy leveling

Icon	Length	Scale	Material	Lock
	15 m	1/15	pc	-
	20 m	1/15	pc	-
	25 m	1/15	pc	-

Steel Roof Angle Bracket

- square surface polished and varnished

Icon	Length x Width	Scale	Material	Lock
	600 x 400 mm	1/6/36	pc	-

Steel Angle Bracket

- carpenter's square
- legible scale
- possibility of setting an angle of 45° and 90°

Icon	Length	Ratio	Material	Other
	250 mm	1/12/120	pc	-
	300 mm	1/12/120	pc	-

Type I Staples

- steel nails, hardened, galvanized

Icon	Info	Box	Group	Hand
S-70324	14 mm	1/20/100	pack	-

Glue Gun

- professional glue gun
- max. power: 80 W
- quick melting of the glue cartridge
- non-drip tip precisely distributes the glue
- glue cartridge Ø 11.2mm

Icon	Info	Box	Group	Hand
S-21110	80 W	1/6/12	pc	-

Glue Gun

- professional glue gun
- max. power: 55 W
- quick melting of the glue cartridge
- non-drip tip precisely distributes the glue
- glue cartridge Ø 11.2mm

Icon	Info	Box	Group	Hand
S-70114	55 W	1/12/24	pc	-

Glue Gun

- professional glue gun
- max. power: 100 W
- built-in power switch
- quick melting of the glue cartridge
- non-drip tip precisely distributes the glue
- glue cartridge Ø 11.2mm

Icon	Info	Box	Group	Hand
S-70119	100 W	1/6/12	pc	-

Hot-Melt Glue Sticks

- professional glue cartridge designed for glue guns working at low and high temperatures

Icon	Info	Box	Group	Hand
S-70130	Ø 11.2 x 300 mm	1/20/60	set	-
S-70135	Ø 11.2 x 300 mm	1/20	set	-

Riveter

- robust steel body
- long handle for easy operation
- 4 replaceable tips for rivets Ø 2, 3, 4, 5 mm

Icon	Info	Box	Group	Hand
S-21614	270 mm	1/6/24	pc	-

Vices and clamps

Quick lever clamp

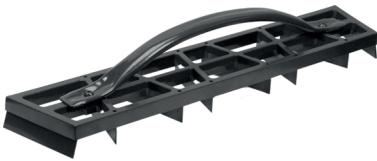

- strong clamp guide made from one piece of steel
- the loosening ratchet opens the lever quickly and easily
- the lever very the desired power quickly reaches, as with screw clamps

Icon	Info	Box	Group	Hand
S-76120	120 x 200 mm	1/2/10	pc	-
S-76130	120 x 300 mm	1/2/8	pc	-
S-76150	120 x 500 mm	1/2/8	pc	-

Ripoff and scraping tools

Plaster Scrubber

- aluminum frame
- 8 x hardened steel blade

S-73590	0	1/20	pc	-

Floor Scrubber

- blade-sheet (hardened carbon steel)
- blade mounting design – reinforced
- reinforcement frame: galvanized carbon steel
- handle – slim beech, 155 cm long
- M6 – screws securing the blade to the rack

S-73591	300 / 155 / 1.2 mm	1	pc	-

Installation tools

Pvc Pipe Cutter

- aluminum body
- plastic coated ergonomic handle
- lock to prevent accidental opening of the tool
- durable, precise gear
- high-grade steel blade

S-67607	Ø0 - 42 mm	1/6/36	pc	-

Al/Cu Pipe Cutter - Mini

- aluminum body
- 2 steel rollers
- smooth adjustment of the cutting diameter
- pocket size
- for cutting Al/Cu/PVC pipes

S-67822	Ø3 - 25 mm	1/12/72	pc	-

Al/Cu Pipe Cutter

- aluminum body
- 4 steel rollers
- smooth adjustment of the cutting diameter
- deburring knife
- for cutting Al/Cu/PVC pipes

S-67825	Ø3 - 35 mm	1/6/36	pc	-

Pipe Cutting Wheel

- made of high quality steel
- Ø 18mm
- for cutting Al/Cu/PVC pipes
- for cutters S-67822, S-67825

S-67827	Ø18 mm	1	pc	-

Excavation work tools

Sand Shovel

- made of high-grade Swedish SAAB boron steel
- hardened steel
- pressed worktop
- metal handle covered with a non-slip rubber cap
- two-component handle

S-74001	0	1/4	pc	-

Straight Spade

- made of high-grade Swedish SAAB boron steel
- hardened steel
- pressed worktop
- metal handle covered with a non-slip rubber cap
- two-component handle

S-74003	0	1/4	pc	-

Pointed Spade

- made of high-grade Swedish SAAB boron steel
- hardened steel
- pressed worktop
- metal handle covered with a non-slip rubber cap
- two-component handle

S-74005	0	1/4	pc	-

Pistols and squeezers

Foam Gun

- brass foam flow control
- handle and housing made of aluminum alloy to ensure lightness and strength
- stainless steel striker for a perfect seal

S-76600	0	1/20	pc	-

Caulking Gun For Chemical Anchors

- 3 of strong steel bars extruding the mixture
- wide, sturdy lock
- thick, wide sheet provides stiffness of the extruder
- sturdy, thick PVC ring accurately matched to the anchor's cartridge

S-73017	205 mm	1/10	pc	-

Caulking Gun

- structure made of 2mm thick sheet
- strong hexagonal rod extruding the mixture
- powerful lever mounted on a strong steel rivet

S-73001	240 mm	1/12	pc	-

Chute Caulking Gun

- strong, steel rod extruding the mixture
- wide, strong push lock
- double lock
- heavy-duty steel cap coupling the skeleton to the body
- wide, thick sheet provides stiffness of the extruder

S-73007	245 mm	1/12	pc	-

Tube Caulking Gun

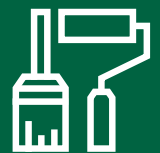

- rigid, lightweight body made of aluminum alloy
- wide, strong push lock
- PVC washer fits tightly into the squeezer tube
- robust, solid PVC dispenser

S-73011	225 mm	1/10	pc	-

S-73837	250 mm	1/5/10	pc	-

Paint Roller - Nylon Nitro

- 100% polyamide
- excellent paint absorption and application
- resistant to styrene and aggressive paints
- for painting smooth surfaces

S-73838	250 mm	1/5/10	pc	-
S-73839	180 mm	1/5/10	pc	-
S-73840	180 mm	1/5/10	pc	-
S-73842	100 mm	1/50	pc	-

Paint Roller - Gold Acryl

- 100% polyamide
- made in thermofusion technology
- optimal paint absorption and application
- long service life
- especially for thick-layered latex and silicate paints

S-73901	180 mm	1/10	pc	-
S-73903	250 mm	1/10	pc	-
S-73905	100 mm; set 10 pcs	1/50	set	-

Paint Roller - Silver Black Universal

- professional roller for smooth surfaces
- made in thermofusion technology with specially reinforced polyamide fabric
- made in endless technology that minimizes wiping and hair loss
- very resistant to wear and tear
- leaves a fine structure

S-73862	100 mm	1/50	pc	-
S-73864	150 mm; set 2 pcs	1/250	set	-

POWER TOOLS

Cordless equipment

POWER TOOLS

Cordless drill/driver DS20-55BL

- clutch adjustment ring
- Battery charge indicator (on battery)
- on-off switch
- direction of rotation button
- gearshift
- Self-clamping handle 13 mm
- two batteries
- charger
- belt holder

S-97310	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: ; 1st gear 0-420 rpm ; 2nd gear 0-1400 rpm. ; Max Soft/hard torque 35/55 Nm ; Chuck jaw opening range 2-13 mm ; Weight approx: 0.9 kg ; Number of included batteries 2 pcs. ; 2Ah battery included ; Battery charging time 60 min.	

Cordless drill/driver DS20-55BL

- clutch adjustment ring
- on-off switch
- direction of rotation button
- gearshift
- Self-clamping handle 13 mm
- Included accessories: belt clip

S-97312	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: ; 1st gear 0-420 rpm ; 2nd gear 0-1400 rpm. ; Max Soft/hard torque 35/55 NM ; Chuck jaw opening range 2-13 mm ; Weight approx: 0.9 kg	

Cordless drill/driver with impact IDS20-75BL

- clutch adjustment ring
- work function change ring
- Battery charge indicator (on battery)
- on-off switch
- direction of rotation button
- gearshift
- 13 mm metal self-locking handle
- Accessories included: two batteries (4 Ah), rapid charger with active cooling (4 Ah), belt clip, extra handle, depth stop, carrying case

S-97314	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: ; 1st gear 0-500 rpm ; 2nd gear 0-2000 rpm. ; Stroke frequency: ; 1st gear 0-7500 rpm ; Second gear 0-30000 min-1 ; Max Soft/hard torque 50/75 NM ; Chuck jaw opening range 1,5-13 mm ; Weight approx: 1.62 kg ; Number of included batteries 2 pcs. ; 4Ah battery capacity included ; Battery charging time 60 min.	

Cordless drill/driver with impact IDS20-75BL

- clutch adjustment ring
- work function change ring
- Battery charge indicator (on battery)
- on-off switch
- direction of rotation button
- gearshift
- 13 mm metal self-locking handle
- Included accessories: belt clip, auxiliary handle, depth stop

S-97316	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: ; 1st gear 0-500 rpm ; 2nd gear 0-2000 rpm. ; Stroke frequency: ; 1st gear 0-7500 rpm ; Second gear 0-30000 min-1 ; Max Soft/hard torque 50/75 NM ; Chuck jaw opening range 1,5-13 mm ; Weight approx: 1.62 kg	

Cordless hammer drill
RHS20-18BL

- SDS-Plus tool holder
- mode selector knob
- anti-vibration handle
- Continuously adjustable on/off switch
- direction of rotation button
- Battery charge indicator (on battery)
- Accessories included: two batteries (4 Ah), rapid charger with active cooling (4 Ah), extra handle, depth limiter, carrying case

S-97325	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: 0-1400 rpm. ; Impact frequency 0-4500 min-1 ; Single impact energy 2.3J ; Chuck type SDS-Plus ; Weight approx: 2.47 kg ; Number of included batteries 2 pcs. ; 4Ah battery capacity included ; Battery charging time 60 min.	-

Cordless angle grinder
AGS20-125BL

- on-off switch
- ventilation inlets
- transmission lock
- guard repositioning system
- Battery charge indicator (on battery)
- Accessories included: two batteries (4 Ah), rapid charger with active cooling (4 Ah), accessory holder, flange wrench, inner flange, outer flange, carrying case

S-97301	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: 8000 rpm. ; Max Disc diameter 125 mm ; Spindle thread M14 ; Weight approx: 1.9 kg ; Number of included batteries 2 pcs. ; 4Ah battery capacity included ; Battery charging time 60 min.	-

Cordless hammer drill
RHS20-18BL

- SDS-Plus tool holder
- mode selector knob
- anti-vibration handle
- Continuously adjustable on/off switch
- direction of rotation button
- Accessories included: additional handle, depth limiter

S-97327	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: 0-1400 rpm. ; Impact frequency 0-4500 min-1 ; Single impact energy 2.3J ; Chuck type SDS-Plus ; Weight approx. 2.47 kg	-

Cordless angle grinder
AGS20-125BL

- on-off switch
- ventilation inlets
- transmission lock
- guard repositioning system
- Battery charge indicator (on battery)
- included accessories:
- Additional handle, flange wrench, inner flange, outer flange

S-97303	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: 8000 rpm. ; Max Disc diameter 125 mm ; Spindle thread M14 ; Weight approx: 1.9 kg ; Battery charging time 60 min.	-

Cordless Multitool Drill DS20-60Q

- clutch adjustment ring
- on-off switch
- direction of rotation button
- gearshift
- Self-clamping handle 13 mm
- interchangeable head system
- Accessories included: additional handle, drill depth stop, belt clip, keyless chuck, eccentric tool holder, angle adapter

Icon	Icon	Icon
S-97318	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Speed at no load: ; 1st gear 0-400 rpm ; 2nd gear 0-1500 rpm. ; Max Soft/hard torque 40/60 NM ; 1/4" HEX-type tool holder ; Chuck jaw opening range 2-13 mm ; Weight approx: 1.4 kg	-

Impact wrench IWS20-300BL

- 1/4" hexagon mount
- direction of rotation button
- Continuously adjustable on/off switch
- control panel in the base of the unit
- Included accessories: belt clip

Icon	Icon	Icon
S-97347	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; No-load speed 0-2100 rpm ; Impact frequency 0-3200 min-1 ; Max Torque 300Nm ; Tool holder type 1/2" square ; Min. and max. threaded clamping elements M12-M22 ; Weight approx: 1.2 kg	-

Impact wrench ISS20-300BL

- 1/4" hexagon mount
- direction of rotation button
- Continuously adjustable on/off switch
- control panel in the base of the unit
- Included accessories: belt clip, PH bit

Icon	Icon	Icon
S-97341	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; No-load speed 0-2100 rpm ; Impact frequency 0-3200 min-1 ; Max Torque 300Nm ; 1/4" HEX-type tool holder ; Min. and max. threaded clamping elements M12-M22 ; Weight approx: 1.2 kg	-

Cordless grinder AGS20-125BLVS

NEW

- brushless motor
- speed control
- Soft start
- Anti restart function
- overheating protection
- an overload protection

Icon	Icon	Icon
S-97305	Rated voltage: 20 V ; Battery type: Li-Ion S-Volt battery system ; No-load speed: 3000-8500 rpm ; Max. disc diameter: 125 mm ; Spindle threads: M14 ; Weight: approx: 2.38 kg	-

**Cordless straight grinder
SGS20-26BLVS**

NEW

- brushless motor
- speed control
- Soft start
- Anti restart function
- overheating protection
- an overload protection

S-97307	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system ; No-load speed: 7000-26000 rpm; Diameter of internal spindle: 8 mm; Internal diameter of the chuck: 6 mm; Weight: approx. 2.03 kg	-

**Cordless sabre saw
RSS20-115CS**

NEW

- stepless speed adjustment using the switch
- keyless accessory change
- type D handle
- soft grip
- swivel handle

S-97359	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Idling stroke frequency: 0-2800 min-1; Saw blade working stroke: 26 mm; Wood: 115 mm; Steel (profile/tube) 5/60 mm; Weight: approx: 2.64 kg	-

**Cordless Jigsaw
JSS20-85BLVS**

- lockable switch
- speed control
- feed speed changeover switch
- Blade lock on the spindle
- saw blade guide
- shoes
- Accessories included: plastic socket, allen key

S-97331	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Number of strokes at idling speed 700-3000 min-1 ; Blade working stroke 26 mm ; Pendulum stroke Yes ; Weight approx: 2.2 Kg	-

**Cordless handheld circular saw
CSS20-165BL**

- lockable switch
- second hand holder
- aluminum foot
- cutting depth adjustment
- cutting angle adjustment
- Shield
- spindle lock
- LED
- Accessories included: saw blade, Allen key, parallel guide, vacuum cleaner connector.

S-97337	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; No-load speed 4800 rpm. ; Max Diameter of saw blade 165 mm ; Mounting hole diameter of saw blade 20 mm ; Max Thickness of cutting disc 1,6 mm ; Max 90 degree cutting depth 57 mm ; Max 45 degree cutting depth 41 mm ; Max 50 degree cutting depth 37 mm ; Weight approx: 2.9 kg	-

**Cordless top spindle moulder
PRS20-20BLVS**

NEW

- brushless motor
- electronic speed stabilisation
- speed adjustment
- smooth start-up
- overload protection

S-97363	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system ; No-load speed: 10,000-30,000 rpm; Inner diameter of the clamping chuck: 6/8 mm; Milling machine body stroke: 20 mm ; Weight: approx: 2 kg	-

POWER TOOLS

**Battery heater
HGS20-550**

NEW

- low weight
- three interchangeable nozzles

S-97365	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Heating temperature: 550 degrees C; Airflow: 200 l/min; Weight: 1.3 kg	-

**Battery-powered sprayer
SPS20-500**

NEW

- adjustable lance length
- jet control
- shoulder strap

S-97373	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Water flow: 0.5l/min; Pressure max: 2 bar; Nozzle diameter: 1.7 mm; Capacity: tank: 7.5 l; Hose length 1.4 m; Lance length: 0.5 m; weight: 1.95 kg	-

**Battery concrete mixer
HMS20-100CS**

NEW

- two gears
- overheating protection
- an overload protection
- stepless speed adjustment using the switch
- ergonomically shaped handles

S-97353	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system ; No-load speed: 1st gear 0-510 rpm; 2nd gear 0-710 rpm; Tool holder: M14; Max. Mixer diameter: 100 mm; Weight: approx. 3.18 kg	-

**Battery concrete mixer
HMS20-120BLCS**

NEW

- brushless motor
- two gears
- overheating protection
- an overload protection
- stepless speed adjustment using the switch
- ergonomically shaped handles

S-97355	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system ; No-load speed: 1st gear 0-420 rpm; 2nd gear 0-710 rpm; Tool holder: M14; Max. Mixer diameter: 120 mm; Weight: approx. 3.7 kg	-

**Cordless pressure washer
HPS20-24**

NEW

- two modes of operation
- suction and pressure pump
- multifunctional nozzle

S-97371	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Max. Feed water pressure: 5 bar; pressure 1st gear: 1.9 Mpa/19 bar; 2nd gear pressure: 2.4 Mpa/24 bar; maximum water flow 1st gear: 160 l/h; maximum water flow rate 2nd gear: 170 l/h; water head: 1.5 m; weight: 1.95 kg	-

**Cordless Hoover
VCS20-500**

NEW

- long operating time
- two modes of operation

S-97367	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Maximum suction power: 3.8 kPa; Capacity: tank: 0.5 l; Weight: 1.3 kg	-

**Cordless blower
ABS20-63**

NEW

- two modes of operation
- switch lock
- speed adjustment

S-97369	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system ; No-load speed: 0-18,000 rpm; Air flow: 2.56 m ³ /min; Air velocity: 63.5 m/s; Maximum suction power 4.5 kPa; Capacity: tank: 0.5 l; Weight: 1.76 kg	-

**Cordless lawn mower
LMS40-38BL**

NEW

- brushless motor
- turbo function
- 5 cutting height positions
- mulching function
- handle height adjustment

S-97712	Rated voltage: 2x20V; Battery type: Li-Ion S-Volt battery system; Cutting width: 38 cm; Blade speed without load: 2800-3400 rpm; Capacity: grass catcher: 40 l; Mowing height: 25-80 mm; Front wheel size: 178 mm; Rear wheel size: 200 mm; weight: 11.6 kg; Degree of protection: IPX4	-

POWER TOOLS

**Cordless lawn mower
LMS40-46BL**

NEW

- brushless motor
- 6 cutting height positions
- turbo function
- metal housing
- 4-in-1 system mulching, collection, side discharge, rear discharge

S-97716		-
<p>Rated voltage: 2x20V; Battery type: Li-Ion S-Volt battery system; Cutting width: 46 cm; Blade speed without load: 2900-3300 rpm; Capacity: grass catcher: 55 l; Cutting height: 25-80 mm; Front wheel size: 200 mm; Rear wheel size: 250 mm; 4-in-1 system: mulching, bin collection, side discharge, rear discharge; Weight: 22.8 kg ; Degree of protection: IPX4</p>		

**Cordless mower with drive
LMS40-51BLSP**

NEW

- brushless motor

- swivel head
- guide wheel

S-97700	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; No-load speed: 7500 rpm; Line diameter: 1.6 mm; Cutting diameter: 305 mm; Rotating head: Yes Automatic line feed: Yes; Telescopic adjustment: 35 cm; weight: 1.9 kg	-

**Cordless secateurs
PSS20-30BL**

NEW

- protection against accidental start-up
- three modes of operation
- brushless motor
- an overload protection
- soft grip

S-97357	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Max. Cutting force: 2600 N; Max. diameter of branches: Operating mode 1: 15 mm; Operating mode 2: 25 mm; Operating mode 3: 30 mm; weight: 1.19 kg	-

**Cordless hedge trimmer
HTS20-71**

NEW

- laser-cut blades
- quiet operation
- low weight
- can be hung on the wall

S-97706	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Blade speed: 1200 min-1; Number of strokes: 2400 min-1; Blade length: 61 cm; Cutting length: 51 cm; Thickness of blade: 1.6 mm; Cutting thickness: max 14 mm; Weight: 2.1 kg	-

**Cordless boom hedge trimmer
PHS20-45**

NEW

- length adjustment
- movable head
- laser-cut blades
- swivel handle

S-97708	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; Blade length: 45 cm; Cutting length: 41 cm; Cutting thickness: max. 16 mm; Length: 2.2-2.75 m; Rotating head -45 to 90 degrees.	-

**Cordless pruning saw
PCS20-20**

NEW

- Oregon chain
- Oregon guide
- length adjustment
- automatic lubrication

S-97710	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; No-load speed: 22,000 rpm; No-load chain speed: 4.5 m/s; Guide length: 203 mm (8"); width of guide groove: 1.3 mm (0.050"); Chain pitch: 3/8"; Number of chain links: 33; Chain type: Oregon 91P033X; Head angle: 0 to 30 degrees; Length: 1.97-2.52 m; Weight 3.3 kg	-

POWER TOOLS

**Cordless chainsaw
CAS20-25BL**

NEW

- brushless motor
- Oregon bar and chain
- automatic lubrication
- electronic+mechanical brake

S-97714	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; No-load speed: 4200 rpm; No-load chain speed: 7.9 m/s ; Chain: OREGON 90PX040X; Chain pitch: 9.525 mm (3/8"); Chain groove thickness: 1.1 mm (0.043"); Number of chain links: 40; Guide bar OREGON 575271; Bar length 254 mm (10"); Chain length 254 mm (10"); Oil tank capacity: 115 ml; Automatic oil metering: 3-8 ml/min; Weight: 2.8 kg	-

**Cordless leaf blower
BLS20-140**

NEW

- stepless speed adjustment using the switch
- low weight

S-97702	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; No-load motor speed: 15000 rpm; Air speed: 140 km/h; Airflow: 498 m3; Speed control: Yes; Weight: 1.3 kg	-

**Cordless leaf extractor/blower
BVS40-720BL**

NEW

- brushless motor
- two modes of operation
- mulching function
- large leaf hopper
- speed adjustment

S-97704	Rated voltage: 2x20V; Battery type: Li-Ion S-Volt battery system; No-load motor speed: 8000-12000 rpm; Air speed (blower mode): 234 km/h; Suction power max. (hoover mode): 720 m3; Mulching: 10:1; Tank capacity: 30L ; Weight: 2.9 kg	-

**Rechargeable work light
WLS20-3W**

- body switch button
- head adjustment
- on-off switch
- Included accessories: belt clip

S-97351	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; LED power 3W ; Luminous flux 180-250 lm ; Max Head rotation angle 270 degrees ; Lighting time approx. (depending on battery capacity): ; 2Ah 12h ; 4Ah 24h ; Weight approx: 0.4 kg	-

**Rechargeable lamp
FLS20-30W**

NEW

- stepless brightness adjustment
- efficient LEDs

S-97352	Rated voltage: 20 V; Battery type: Li-Ion S-Volt battery system; LED power: 30W; LED output: 133LM/W; Lumens: 400-4000LM; Luminous angle: 120 degrees; Correlated CCT colour temperature: 6000K ; CRI Ra: 74; LED lifetime approx: 50 000 h; Degree of protection: IP 65; Mechanical strength IK 07; USB output: 5V/1A	-

Li-Ion 12V battery

- lithium-ion battery for maximum service life, minimum self-discharge and no unwanted memory effect
- compact
- Intended for: S-97108

S-97129	Li-Ion 12V; 2Ah	-		

**Battery 20V 2Ah
BLS20-2AH**

- battery charge indicator
- vents
- blockade

S-97381	Nominal voltage 20 V Max. ; Capacity 2Ah (40 Wh) ; Weight approx: 0.4 kg	-		

12V 1.5A charger

- quick charger for Li-Ion batteries
- thanks to the charging parameter monitoring system it helps to extend the battery life
- designed for the battery model: S-97129

S-97124	Voltage 12V ; Charging current 1.5A; Power 33W	-		

**Battery 20V 4Ah
BLS20-4AH**

- battery charge indicator
- vents
- blockade

S-97383	Nominal voltage 20 V Max. ; Capacity 4Ah (80 Wh) ; Weight approx: 0.68 kg	-		

**Charger 2A 20V 55W
BCS20-2A**

- battery status indicators
- battery socket

S-97391	Nominal capacity 55 W ; Nominal voltage 220-240 V ; Nominal frequency 50/60 Hz ; Output voltage 18-20 VDC ; Output current 2A ; Weight approx: 0.36 kg ; Charger designed for: S-Volt lithium-ion battery system	-		

**4Ah battery
BLS20-4AHP**

NEW

- charge indicator
- vents

S-97385	Capacity: 4Ah (80 Wh); Cell type: 21700; Weight: approx: 0.6 kg	-		

**Double charger
BCS20-2X**

NEW

- Two charging sockets

S-97392	Rated power 105W; Rated voltage: 220-240 V; Rated frequency 50/60 Hz; Output voltage 18-20 VDC; Maximum output current 4A; Weight approx: 0.93 kg; Charger designed for the system: Li-ion S-Volt battery system	-		

**8Ah battery
BLS20-8AHP**

NEW

- Capacity: 8Ah (160 Wh)
- Cell type: 21700
- Weight: approx: 0.98 kg

S-97387	Cell type: 21700; Charge indicator; Vents	-		

**Charger 4A 20V 100W
BCS20-4A**

NEW

- battery status indicators
- battery socket

S-97393	Nominal capacity 100 W ; Nominal voltage 220-240 V ; Nominal frequency 50/60 Hz ; Output voltage 18-20 VDC ; Output current 4A ; Weight approx: 0.54 kg ; Charger designed for: S-Volt lithium-ion battery system	-		

9A charger
BCS20-9AP

- intelligent battery type recognition system
- active cooling
- super fast charging

S-97395	Rated power 250W; Rated voltage: 220-240 V; Rated frequency 50/60 Hz; Output voltage 18-20 VDC; Output current 3.6/5.6/9.6 A; Weight approx.: 0.9 kg; Charger designed for the system: Li-ion S-Volt battery system	-		

USB Charger
UCS20

- LED
- right/left switch
- USB Connectors

S-97389	Nominal voltage 20V ; Battery type Battery system Li-Ion S-Volt ; Output voltage (current) ; USB1 (Type A) 5V (1A) ; USB2 (TypeA) 5V(1A) ; LED power 0.6 W ; Weight approx: 0.1 kg	-		

Impact drill 810W
IDS16KVS

- on/off switch lock
- on/off switch (speed control on the switch)
- change mode button
- keyless grip
- aluminum gearbox housing
- Accessories included: drill depth stop, additional handle

S-97217	Nominal capacity 810 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60HZ ; Current 3.9 A ; No-load speed 0-2800 rpm ; Stroke rate 0-44800 strokes/min ; Jaw opening range of drill chuck 1.5-13 mm ; Weight approx. 2.3 kg ; Protection class II ; Length of power cord 2.5 m	-	

Powered tools

Impact drill 600W
IDS13VS

- on/off switch lock
- on/off switch (speed control on the switch)
- change mode button
- key holder
- Accessories included: drill depth stop, extra drill chuck, drill chuck wrench

S-97215	Nominal capacity 600 W ; Nominal voltage 230V ; Current consumption at 220-230 V 2.8 A ; No-load speed 0-2800 min ⁻¹ ; Impact frequency 0-44800 min ⁻¹ ; Weight 1.7 kg ; Power cord: 2 m ; Handle type Rim handle ; Tightening range of chuck 1,5-13 mm	-	

Impact drill 1050W
IDS20-2VS

- on/off switch lock
- on/off switch (speed control on the switch)
- mode selector knob
- gear selector
- keyless grip
- aluminum gearbox housing
- Accessories included: drill depth stop, extra drill chuck, drill chuck wrench

S-97219	Nominal capacity 1050 W ; Nominal voltage 230V ; Nominal frequency 50/60HZ ; Current 4.8 A ; Speed at no load ; 1st gear 0-1200 rpm ; 2nd gear 0-2800 rpm. ; Stroke frequency ; 1 gear 0-19200 ; 2nd gear 0-44800 bpm ; Jaw opening range of drill chuck 1.5-13 mm ; Weight approx. 2.9 kg ; Protection class II ; Length of power cord 3 m	-	

**SDS-Plus hammer drill
RHS26**

- SDS-Plus handle
- auxiliary handle lock
- safety pin for operating mode switch
- switch plus operating modes
- direction of rotation button
- Continuously adjustable on/off switch
- switch lock
- Swivelable power cord protector
- included accessories:
- 1x sds plus 6x150 drill bit, 1x sds plus 8x150 drill bit, 1x sds plus 10x150 drill bit, pointed chisel, flat chisel 14x250. 13 mm key chuck adapter +, additional handle, drill depth stop.

☰	i	☞
S-97157	Nominal capacity 800 W ; Nominal voltage 220-240 V ; Nominal frequency 50/60 Hz ; Handle type: SDS Plus ; No-load speed 0-1450 rpm. ; Stroke frequency: 0-5900 beats per minute ; Impact energy: 2.8J ; Weight approx. 2.8 kg ; Length of power cord 3 m ; Protection class II	-

**SDS MAX RH40 Rotary Impact
Hammer**

- SDS-MAX<1 chuck
- 2 Operating modes plus chisel adjuster with 8 positions
- A safety clutch protects the user and the machine in the event of a sudden blockage of the tool.
- High impact energy of 10J ensures effective work in hard materials
- The gear housing made of magnesium alloy reduces weight and provides better heat dissipation from the inside of the gear
- A convenient additional handle located close to the tool chuck allows comfortable work and adjustment to the optimum working position.
- Accessories included: 1x SDS-MAX 16x320mm drill bit, 1x SDS-MAX 18x320mm drill bit, 1x SDS-MAX 22x320mm drill bit, SDS-MAX 350mm pointed chisel, 25x350mm flat chisel, Extra handle, Drilling depth stop, Chuck grease, Dust protection

☰	i	☞
S-97509	Type of chuck SDS MAX; Rated voltage 230V-240V; Rated frequency 50 Hz; Rated input power 1250 W; Rated speed without load 410 r / min; Impact rate 3100 BPM; Impact energy 10 J; Max. drilling diameter; Concrete 40 mm; Weight (without accessories) approx. 6.6 kg; Protection Class II; Power cord length: 4M; Noise level: 108db	-

**Rotary Impact Hammer SDS Plus
RH36VS**

- SDS-Plus chuck
- 3 Operating modes plus chisel adjuster with 8 positions
- Speed control allows adjusting the speed and power of the device to the task
- The gear housing made of magnesium alloy reduces the weight and ensures better heat dissipation from the inside of the gear
- A safety clutch protects the user and the machine in the event of a sudden blockage of the tool.
- The 1500W motor allows drilling with drill bits up to 36mm in diameter as well as with concrete saws without loss to drilling performance.
- A 4-metre long power cord allows you to work in areas of up to 64m2 without re-plugging.
- Accessories included: 1x SDS-PLUS 8x150mm drill bit, 1x SDS-PLUS 10x150mm drill bit, 1x SDS-PLUS 12x150mm drill bit, SDS-PLUS pointed chisel 250mm, Flat chisel 14x250, extra handle, Drilling depth stop, Chuck grease, Dust protection.

☰	i	☞
S-97506	Type of chuck: SDS Plus; Rated voltage: 220-240V ~; Rated frequency: 50Hz; Rated Input Power: 1500 watts; Rated speed without load: 0-920 r / min; Impact factor: 0-4100 BPM; Impact energy: 5.5 J; Weight (without accessories) approx. 5.4 kg; Protection Class II; Power cord length: 4M; Noise level: 100.46db	-

Demolition Hammer SDS MAX DH10J

- SDS-MAX<1 chuck
- 12 The gradual adjustment of the chisel position allows for precise selection of the chisel position to the specific task.
- Switch with interlock function in „ON” mode
- The gear housing made of magnesium alloy reduces weight and provides better heat dissipation from the inside of the gear
- Anti-dust motor cover protects against the harmful effects of dust and helps to extend the service life of the device
- Due to its low weight, small size and high impact energy, the device is an extremely efficient work tool
- Accessories included: 1x Pointed Chisel 350mm, 1x Flat Chisel 25x350mm, Chuck grease, Extra handle, Dust protection, 1x set of carbon brushes.

☰	i	☞
S-97520	Type of chuck SDS MAX; Rated voltage 220-240V ~; Rated frequency 50Hz; Rated input power 1050 W; Impact factor Max. 2100 BPM; Impact energy 10.0J; Weight (without accessories) approx. 5.3 kg; Protection Class II; Power cord length: 4M; Noise level: 105dB	-

SDS-MAX demolition hammer DHS20J

- SDS Max tool holder
- auxiliary handle
- lockable switch
- chisel adjustment ring
- included accessories: 1x sharp chisel 350 mm, 1x flat chisel 25x350 mm, 1x grease for working handle, 1x additional handle

S-97522	Nominal capacity 1300 W ; Nominal voltage 230-240 V ; Nominal frequency 50 Hz ; Handle type: SDS Max ; Stroke frequency: 2400 bpm ; Impact energy: 20J ; Weight approx. 7.5 kg ; Length of power cord 4 m ; Protection class II	-

Angle grinder AG230

- disc diameter 230mm
- The "anti-restart" system prevents restart in case of power failure
- The "Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up.
- a 270-degree adjustable handle allows you to perfectly adjust the working position to the specific task.
- accessories included: extra handle, protective cover, external flange key, internal flange, external flange, 1x set of carbon brushes

S-97106	Rated voltage: 230V; Rated frequency: 50HZ; Power: 2400W; Rotation speed: 6000 rpm; Disc Diameter: 230mm; Thread Type: M14; Protection Class: II; Power cord length: 3M; Weight: 5.7Kg	-

Angle grinder AG125

- disc diameter 125mm
- The "anti-restart" system prevents restart in case of power failure
- The "Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up.
- accessories included: extra handle, protective cover, external flange key, internal flange, external flange, 1x set of carbon brushes

S-97098	Rated voltage: 230V; Rated frequency: 50HZ; Power: 750W; Rotation speed: 11,000 rpm; Disc Diameter: 125mm; Thread Type: M14; Protection Class: II; Power cord length: 2M; Weight: 2Kg	-

Angle grinder AG125Q

- disc diameter 125mm
- The "anti-restart" system prevents restart in case of power failure
- The "Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up.
- a quick-release blade guard allows for tool-free adjustment and quick adaptation of the device to the specific task
- special design ventilation inlets and anti-dust protection of the rotor and stator allow you to work in very dusty environments.
- accessories included: extra handle, protective cover, external flange key, internal flange, external flange, 1x set of carbon brushes

S-97200	Rated voltage: 230V; Rated frequency: 50HZ; Power: 1100W; Rotation speed: 1100 rpm; Disc Diameter: 125mm; Thread Type: M14; Protection Class: II; Power cord length: 3M; Weight: 2.3 Kg	-

**Random orbital sander 240W
ESS125**

- on-off switch
- Velcro foot
- bag
- Accessories included: dust bag, 2x abrasive paper

S-97260	Nominal capacity 240 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 1 A ; No-load speed 12000 rpm. ; No-load oscillation frequency 24000 rpm. ; Eccentricity 2 mm ; Diameter of sanding pad 125 mm ; Weight approx. 1.5 kg ; Protection class II ; Length of power cord 2 m	

**Planer
WCS30**

- cutting depth adjustment
- cutting width adjustment
- connection to vacuum cleaner
- on/off switch lock
- guide wheel
- included accessories: 2x diamond cutting discs, flange wrench, hex key, hex key with handle, chisel, carbon brush set, support handle, vacuum cleaner adapter

S-97212	Nominal capacity 1500 W ; Nominal voltage 230-240 V ; Nominal frequency 50 Hz ; Current intensity 7A ; Nominal speed 8500 rpm. ; Cutting disc diameter 125 mm ; Blade opening diameter 22.23 mm ; Maximum thickness of cutting disc 2,2 mm ; Cutting depth 5-29 mm ; Cutting width 8-30 mm ; Spindle thread size M14 ; Weight approx. 4.85 kg ; Length of power cord 3 m ; Protection class II	

**Random orbital sander 450W
ESS150VS**

- adjustable switch
- Velcro foot
- bag
- Additional hand grip for second hand
- Accessories included: dust bag, 2x abrasive paper

S-97262	Nominal capacity 450 W ; Nominal voltage 220-240 V ; Nominal frequency 50/60 Hz ; Current 1.9 A ; No-load speed 4000-13000 rpm. ; No-load oscillation frequency 8000-26000 min-1 ; Eccentricity 2 mm ; Diameter of sanding pad 150 mm ; Weight approx. 2.4 kg ; Protection class II ; Length of power cord 2 m	

**Jigsaw 550W
JSS65VS**

- variable speed switch
- forward switch
- connector for vacuum cleaner
- foot adjustment
- Blade lock on the spindle
- included accessories: 1x saw blade, 1x Allen wrench, 1x vacuum cleaner adapter

S-97230	Nominal capacity 550 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 2.4 A ; Number of strokes at idling speed 700-3000 min-1 ; Working stroke of blade 18 mm ; Maximum body tilt angle (left/right) 45/45 degrees ; Weight approx. 2 kg ; Protection class II ; Length of power cord 2 m	

**Jigsaw 710W
JSS85VS**

- lockable switch
- Speed control
- forward switch
- connector for vacuum cleaner
- foot adjustment
- Blade lock on the spindle
- included accessories: 1x saw blade, hex key, two thumb screws for guide bar, locating pin, parallel/round cutting guide, guide bar, vacuum cleaner adapter.

☰	i	☞
S-97232	Nominal capacity 710 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 3.1 A ; Number of strokes at idling speed 700-3000 min-1 ; Working stroke of blade 26 mm ; Maximum body tilt angle (left/right) 45/45 degrees ; Weight approx. 2.9 kg ; Protection class II ; Length of power cord 2.5 m	-

**Handheld Circular Saw 1500W
CSS190**

- lockable switch
- second hand holder
- cutting depth adjustment
- cutting angle adjustment
- Shield
- connection to vacuum cleaner
- included accessories: 1x cutting blade, wrench, parallel guide, vacuum cleaner adapter

☰	i	☞
S-97240	Nominal capacity 1500 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 6.8 A ; No-load speed 5500 rpm. ; Min. saw blade diameter 185 mm ; Max. saw blade diameter 190 mm ; Mounting hole diameter of saw blade 20 mm ; Max. blade thickness 2 mm ; Max. depth of cut at 90 degrees: 66 mm ; Max. cutting depth 45 degrees: 46 mm ; Weight approx. 4.4 kg ; Protection class II ; Length of power cord 3 m	-

**Handheld Circular Saw 1200W
CSS165**

- lockable switch
- second hand holder
- cutting depth adjustment
- cutting angle adjustment
- Shield
- connection to vacuum cleaner
- included accessories: 1x cutting blade, wrench, parallel guide, vacuum cleaner adapter

☰	i	☞
S-97238	Nominal capacity 1200 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 5 A ; No-load speed 5500 rpm. ; Min. saw blade diameter 160 mm ; Max. saw blade diameter 165 mm ; Mounting hole diameter of saw blade 20 mm ; Max. blade thickness 2 mm ; Max. depth of cut at 90 degrees: 54 mm ; Max. cutting depth 45 degrees: 38 mm ; Weight approx. 3.9 kg ; Protection class II ; Length of power cord 3 m	-

**Metal cutting machine 2400W
MCS355**

- Shield
- spindle lock
- lockable switch
- transport lock
- vice with cutting angle
- accessories included: Allen wrench, carbon brush set, metal cutting wheel

☰	i	☞
S-97630	Voltage 220-240V/50Hz ; Nominal input power: 2400 W ; Speed at no load: 4300r/min ; Blade diameter: Ø355 mm ; Blade mounting diameter 25.4 mm ; Maximum cutting capacity: Soft Steel Sheet: Max thickness: 12 mm, 1/2" Max. 90° square pipe: 120x120 mm; 4-3/4" x 4-3/4" Max. Square tube at a 45° angle: 89x89 mm; 3-1/2" x 3- 1/2" Max 90° rectangular pipe: 95x180 mm; 3-3/4" x 7-1/8" Max. rectangular pipe at 45° angle: 78x110 mm; 3-1/8" x 4-3/8" Max. length of round pipe: at 90°: Φ 130 mm; Φ 5-1/8" Max. length of round pipe: at 45°: Φ 105 mm; Φ 4-1/8" ; Power cord length: 2M	-

**1010W Reciprocating Saw
RSS1010VS**

- On/off switch with lock and speed control
- foot adjustment
- Blade lock on the spindle
- rubber boot
- included accessories: 1x saw blade

S-97250	Nominal capacity 1010 W ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 4 A ; Number of strokes at idling speed 300-2400 min ⁻¹ ; Working stroke of blade 28 mm ; Weight approx. 3.7 kg ; Protection class II ; Length of power cord 3 m	-

EHS 2000 heater

- ceramic heating element (PTC)
- double thermal protection
- power indicator light
- 3 operating modes
- quiet operation
- metal housing

S-97640	voltage: 220-240 VAC 50 Hz; heating setting: 25/1000/2000 W; heating surface: 20m ² ; air capacity: 197m ³ /h; PTC heating element; double overheating protection; power indicator light;	-

**Tanners 1800W
HGS550**

- switch with three-stage adjustment
- Accessories included: scraper, flat nozzle, deflection nozzle, rebound nozzle, spot nozzle.

S-97281	Nominal capacity ; (stage 1/2/3) 100/800/1800 W ; Nominal voltage 220-240 V ; Nominal frequency 50/60 Hz ; Temperature (degree 1/2/3) 50/450/550 degrees C ; Air flow (stage 1/2/3) 250/250/500 l/min ; Weight approx. 0.7 kg ; Protection class II ; Length of power cord 2 m	-

EHS 3000 heater

- ceramic heating element (PTC)
- double thermal protection
- power indicator light
- 3 operating modes
- quiet operation
- metal housing

S-97642	voltage: 220-240 VAC 50 Hz; heating setting: 2000/3000 W; heating surface: 30m ² ; air capacity: 238m ³ /h; PTC heating element; double overheating protection; power indicator light;	-

**Tanners 2000W
HGS650E**

- switch with two-stage control
- LED screen with control panel
- additional hand protection
- Accessories included: scraper, flat nozzle, deflection nozzle, rebound nozzle, spot nozzle.

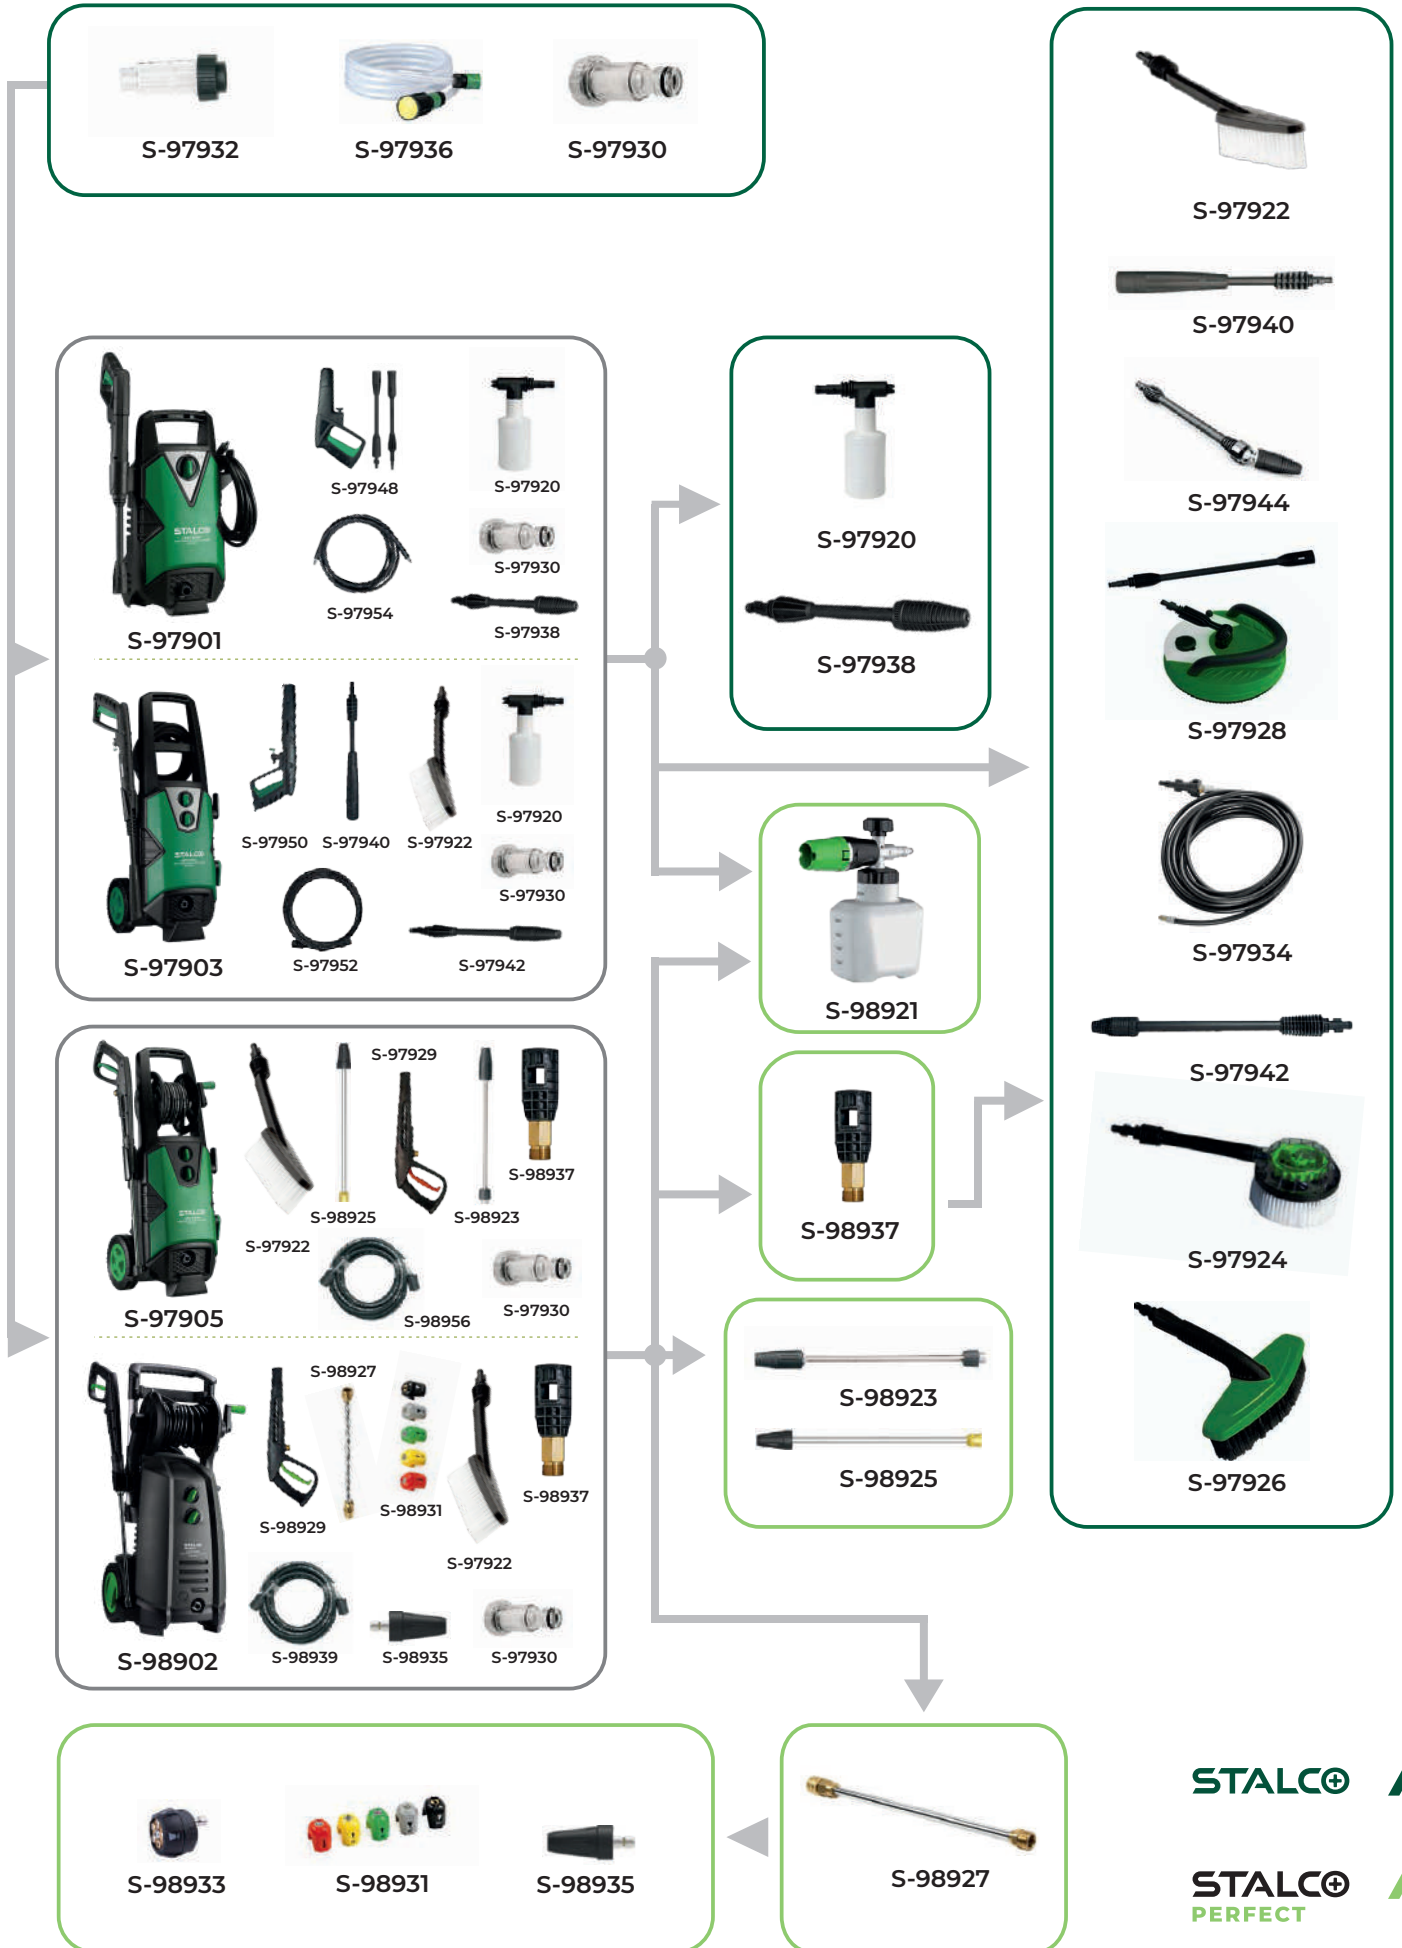

S-97283	Nominal capacity ; (stage 1/2) 100-140/100-2000 W ; Nominal voltage 220-240 V ; Nominal frequency 50/60 Hz ; Temperature (degree 1/2) 50/ 50-650 degrees C ; Air flow rate (stage 1/2) 250-500/ 250-500 l/min ; Weight approx. 0.9 kg ; Protection class II ; Length of power cord 2 m	-

Mixer HM18SC

- 2-gears
- Smooth switch-operated electronic speed control allows you to adjust the speed of the device to the task.
- Protection against accidental activation.
- Accessories included: Stirrer diameter 140x590, 2x flat wrench for mounting the stirrer

S-97541	Rated voltage: 230V; Rated frequency: 50HZ; Power: 1800W; Rotation speed: 1 gear 0-440 / 2 gear 0-780 rpm; Thread type: M14; Protection Class: II; Power cord length: 3M; Weight: 4.6 Kg	-

High-pressure cleaner HPC120A

- brush motor with copper winding
- aluminium suction-and-pressure pump
- Total Stop system
- Quick connect system
- Thermal Protection
- accessories included: Spray gun, Extension Lance, Adjustable Lance, 5 m PVC High-pressure Hose, Foam gun, Water filter

S-97901	Rated voltage: 220-230V; Rated frequency: 50HZ; Power: 1500 watts; Maximum pressure: 120 Bar Max; Working pressure: 80 Bar; Flow Max: 432 L / H Max; 5 m hose: Weight: 6.2Kg; Protection Class: II; Power cord length: 5M	-

High-pressure cleaner HPC170AI

- Induction motor with copper winding
- aluminium suction-and-pressure pump
- Total Stop system
- Thermal Protection
- built-in detergent tank
- hose drum
- chemical dosage control
- accessories included: Spray gun with brass fittings, Turbo Lance, Adjustable Lance, High-pressure hose
- 8 m steel braided, Universal Brush, Adapter, Water filter

S-97905	Rated voltage: 220-230V; Rated frequency: 50HZ; Power: 2500 watts; Maximum pressure: 170 Bar Max; Working pressure: 130 Bar; 468 L / H Max; 8 m hose; Weight: 24.5 Kg; Protection Class: AND; Power cord length: 5M	-

High-pressure cleaner HPC150A

- brush motor with copper winding
- aluminium suction-and-pressure pump
- Total Stop system
- Quick connect system
- Thermal Protection
- built-in detergent tank
- chemical dosage control
- accessories included: Spray gun, Adjustable lance, Turbo lance, 6 m PU high-pressure hose, Universal brush, Foam gun, Water filter

S-97903	Rated voltage: 220-230V; Rated frequency: 50HZ; Power: 2000 W; Maximum pressure: 150 Bar Max; Working pressure: 110 Bar; 468 L / H Max; 6 m hose; Weight: 14.3 Kg; Protection Class: II; Power cord length: 5M	-

3/4" water filter with quick coupling

- prevents solid particles from entering the device, helps to extend the service life of the device

S-97930	Compatible with cleaner models: S-97901, S-97903, S-97905, S-98902	-		

3/4" water filter

- prevents solid particles from entering the device
- helps to extend the service life of the cleaner
- thanks to the large filtering surface it significantly improves the water flow

S-97932	Compatible with cleaner models: S-97901, S-98902, S-97905, S-97903	-		

Turbo lance

- cleans up to 40% faster than a standard nozzle
- powerful, rotating jet effectively removes dirt from solid, hard surfaces

S-97938	Compatible with cleaner models: S-97901, S-97903	-	-	-

Adjustable lance

- easy jet control through the lance tip adjuster
- designed for cleaning various types of surfaces

S-97940	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is also suitable for: S-97905, S-98902	-	-	-

Turbo lance

- cleans up to 40% faster than a standard nozzle
- powerful, rotating jet effectively removes dirt from solid, hard surfaces

S-97942	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is also suitable for: S-97905, S-98902	-	-	-

Rotary Turbo Lance

- perfect for cleaning hard-to-reach places thanks to the tip adjustable at various angles. It will work well for washing, vehicle chassis, car wheel arches, etc.

S-97944	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is also suitable for: S-97905, S-98902	-	-	-

Extension lance

- an easy-to-install lance for connecting various types of equipment

S-97946	Compatible with cleaner models: S-97901	-	-	-

Foam gun

- increased cleaning efficiency
- made of durable reinforced nylon PA66

S-97920	Volume 0.35 l; Compatible with cleaner models: S-97901, S-97903	-	-	-

Kit: spray gun, extension lance, adjustable lance

- this kit is designed for high pressure cleaners equipped with quick couplings for easy connection of the gun, lance and high pressure hose

S-97948	Compatible with cleaner models: S-97901	-	-	-

High-pressure cleaner gun

- a high-quality high-pressure gun with a threaded connection and trigger lock.

S-97929	Compatible with cleaner models: S-97905	-	-	-

High-pressure cleaner gun

- the spray gun is equipped with a trigger lock and quick couplings for easy connection of the gun and high-pressure hose

S-97950	Compatible with cleaner models: S-97903	-	-	-

Universal brush

- Perfect for cleaning patios, cars, boat decks, grills, windows and other surfaces

S-97922	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is suitable for: S-97905, S-98902	-		

Rotary brush

- powered by water pressure for superior performance with minimum effort
- perfect for thorough cleaning of any surface
- allows convenient cleaning of hard-to-reach places

S-97924	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is also suitable for: S-97905, S-98902	-		

Wide brush

- excellent surface efficiency makes the brush ideal for cleaning larger surfaces
- the delicate bristles used in the brush protect the surface against scratching

S-97926	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is also suitable for: S-97905, S-98902	-		

Patio Rotary Brush

- perfect for cleaning flat, vertical and horizontal surfaces
- durable, universal brush removes dirt and impurities
- equipped with a detergent tank for better cleaning performance and a convenient handle

S-97928	Compatible with cleaner models: S-97901, S-97903 If used with the S-98937 adapter, it is also suitable for: S-97905, S-98902	-		

Sewer cleaning hose 15m

- the high-pressure hose removes dirt, debris and hard congestions from gutters, drain pipes and sewers
- resistant to weather conditions and abrasion

S-97934	15 m; inner diameter 1/4"; outer diameter 3/8", Compatible with cleaner models: S-97901, S-97903; If used with the S-98937 adapter, it is suitable for: S-97905, S-98902	-		

Suction hose 5 metres

- easy suction - quick extraction of stored water from a barrel or water reservoir

S-97936	Compatible with cleaner models: S-97901, S-97903, S-97905, S-98902	-		

6m PU high pressure hose

- resistant to oils, weather conditions and abrasion
- a robust, flexible structure resistant to kinks

S-97952	6m; Compatible with cleaner models: S-97903	-		

5m PVC high-pressure hose

- resistant to oils, weather conditions and abrasion
- quick and convenient assembly and disassembly from the device and the gun, saves time

S-97954	5 m; Designed for the model of the washer: S-97901	-		

High pressure hose steel braided 8m

- high pressure hose with a robust, flexible structure resistant to kinks, adverse weather conditions and abrasions.

S-97956	8 m; Compatible with cleaner models: S-97905	-		

Construction spotlight
50W FLS-50W

NEW

- stable tripod
- Protection class IP65
- high colour rendering index
- Wide light beam angle
- long-life LEDs
- neutral light colour
- low weight
- tripod height adjustment

☰	i	☞
S-97810	<p>Supply voltage: 100-240 V~ 50/60 Hz; Rated power: 50 W; Luminous flux: 4500 lm; Correlated CCT colour temperature: 5000 K; CRI Ra: 80; Light angle: 120 degrees; Operating temperature: -25C to +45C; IP degree of protection: IP 65; Tripod rotation angle: 360 degrees; Power cable length: approx. 3 m; Minimum and maximum adjustable stand height: 60/180 cm; LED lifetime: 30 000 h; Energy class: F; Weight: 2.6 kg</p>	-

Construction spotlight 2x100W

Cordless equipment

Mowing robot RMP650

NEW

- quiet operation
- rain sensor
- control function from the app: Wi-Fi 2.4G, Bluetooth 4.0
- automatic return to base
- Cutting height adjustment
- four mowing zones
- pin code security
- advanced sensors for safety and efficiency.

S-98700	Mowing area: up to 600 m ² ; Rated voltage: 20 V; Battery type: Li-Ion ; Battery capacity: 2.5 Ah; Disc speed at no load: 2800 rpm; Mowing diameter: 180 mm; Cutting height: 20-60 mm; Cutting height positions: 5; Maximum slope: 20 degrees/36%; Narrowest possible passage: 0.8 m; Mowing method: Mulching; Communication: Wi-Fi 2.4g+ Bluetooth 4.0; App: Yes; Configuration method: Keyboard/ Application; Number of Schedules: 1; Charging time: 120 min; Weight: 8 kg; Noise: <55dB; Degree of protection of mower: IPX5; Degree of protection of the charging station: IPX4; Degree of protection of the power supply: IP67	-

Mowing robot RMP950

NEW

- quiet operation
- rain sensor
- control function from the app: Wi-Fi 2.4G, Bluetooth 4.0
- automatic return to base
- Cutting height adjustment
- four mowing zones
- pin code security
- advanced sensors for safety and efficiency
- two work schedules
- fast charging

S-98702	Mowing area: up to 900 m ² ; Rated voltage: 20 V; Battery type: Li-Ion ; Battery capacity: 5 Ah; Disc speed at no load: 2800 rpm; Mowing diameter: 180 mm; Cutting height: 20-60 mm; Cutting height positions: 5; Maximum slope: 20 degrees/36%; Narrowest possible passage: 0.8 m; Mowing method: Mulching; Communication: Wi-Fi 2.4g+ Bluetooth 4.0; App: Yes; Configuration method: Keyboard/ Application; Number of schedules: 2; Charging time: 90 min; Weight: 8.2 kg; Noise: <55dB; Degree of protection of mower: IPX5; Degree of protection of the charging station: IPX4; Degree of protection of the power supply: IP67	-

**Rechargeable battery for work lamps
LED H-OSL10**

- movable head with light diffuser
- COB LED technology
- 10W power provides up to 1000 lumens with adjustable light intensity
- Additional handle
- strong built-in magnet

S-98801	Reflector (number of lumens): 1000-100 ; Angle of incidence of light: 120° ; Spotlight (Lumen): 150 ; Correlated CCT colour temperature: 5600 - 6500k ; Operating time: 2-10 h ; Recharge Time: 4 h ; IP degree of protection: IP 65 ; IK mechanical strength class: IK 07 ; Input power: 10 COB/2 SMD ; Battery capacity: 3200 mAh, Li-ion ; Power cable: USB - Type C, 1 m ; Charger: 5V 1A ; Dimensions: 362x 53x 65 mm ; Weight: 265 g	-

**Workshop Lamp Battery
LED H-D45**

- Tube design for 180° beam
- head on a flexible boom
- technology 42 x SMD LED
- 5W provides up to 450 lumens of luminous flux
- Additional handle
- strong built-in magnet

S-98807	Reflector (number of lumens): 450 ; Spotlight (Lumen): 100 ; Correlated CCT colour temperature: 6000k ; Operating time (headlights): 3.5 h ; Operating time (spot light): 9 h ; Recharge Time: 3.5 h ; IP degree of protection: IP 65 ; IK mechanical strength class: IK 07 ; Input power: 5 W 42 x SMD/2 W SMD ; Battery capacity: 2600 mAh, Li-ion ; Power cable: Micro USB, 1,2 m ; Charger: 5V 1A ; Dimensions: ø 54 x 446 mm ; Weight: 350 g	-

**Rechargeable battery for work lamps
LED H-D10**

- movable head with light diffuser
- COB LED technology
- 10W power provides up to 1000 lumens with adjustable light intensity
- Additional handle
- strong built-in magnet

S-98803	Luminous flux (Lumen): 1000-100 ; Angle of incidence of light: 90° ; Diffused light (number of lumens): 800-80 ; Angle of incidence of light: 360° ; Correlated CCT colour temperature: 5600 - 6500k ; Operating time: 2-10 h ; Recharge Time: 4 h ; IP degree of protection: IP 65 ; IK mechanical strength class: IK 07 ; Input power: 10 W COB ; Battery capacity: 3200 mAh, Li-ion ; Power cable: USB - Type C, 1 m ; Charger: 5V 1A ; Dimensions: 247x 68x 96 mm ; Weight: 460 g	-

**Reflector mini battery
LED H-CFL10**

- LED technology
- The 10 watt output provides up to 1000 lumens with a 100%/50% adjustable range.
- Practical on/off button
- battery charge indicator
- Additional handle
- strong built-in magnet

S-98809	Luminous flux (Lumen): 1000/500 ; Light angle (main source): 120° ; Correlated colour temperature: CCT 6000 K ; Operating time: 3 h/6 h ; Recharge Time: 3,5/5 h ; IP degree of protection: Waterproof to IP 68 ; IK mechanical strength class: IK 09 ; Input power: 10 Watts ; Battery capacity: 4400 mAh 3.7 V ; Power cable: USB Type-C, 1 m ; Charger: 5V 1A ; Dimensions: 145x100x45 mm ; Weight: 385 g	-

**Rechargeable battery for work lamps
LED H-FB5**

- head on a flexible boom
- COB LED technology
- 5W power provides up to 500 lumens with adjustable light intensity
- Additional handle
- strong built-in magnet

S-98805	Reflector (number of lumens): 500-50 ; Light angle: 120° ; Spotlight (Lumen): 150 ; Correlated CCT colour temperature: 5600 - 6500k ; Operating time: 3.5-18 h ; Recharge Time: 3.5 h ; IP degree of protection: IP 65 ; IK mechanical strength class: IK 07 ; Input power: 5 COB/2 SMD ; Battery capacity: 3200 mAh, Li-ion ; Power cable: USB - Type C, 1 m ; Charger: 5V 1A ; Dimensions: 479 x 60 x 43 mm ; Weight: 265 g	-

**Reflector battery
LED LUM-X C-FL40W**

- COB LED technology
- 40W power provides up to 4000 lumens with continuously variable light intensity function
- Practical on/off button
- battery charge indicator
- Additional handle

S-98811	Luminous flux (Lumen): 4000/400 ; Luminous flux (Lumen) with diffuser: 3200/320 ; Angle of incidence of light: 120° ; Angle of light with diffuser: 360° ; Correlated CCT colour temperature: 6000 K ; Operating time: 2 h - 15 h ; Recharge Time: 4.5 h ; IP degree of protection: IP 65 ; IK mechanical strength class: IK 07 ; Input power: 40 Watts ; Battery capacity: 5200 mAh, 11.1 V ; AC Input: - USB ; Output: 5V 1A ; Power cable: 5m 2*1.0 H05RN ; Dimensions: 280x219x87 mm ; Weight: 2.71 kg	-

Reflector battery LED LUM-X C-FL40W BT

- impact resistance
- COB LED technology
- 40W power provides up to 4000 lumens with adjustable light intensity
- bluetooth function
- two speakers with power of 2x5W
- Practical on/off button
- battery charge indicator
- Additional handle

S-98813	Luminous flux (Lumen): 4000/400; Luminous flux (Lumen) with diffuser: 3200/320; Angle of incidence of light: 120°; Angle of light with diffuser: 360°; Correlated CCT colour temperature: 6000 K; Operating time: 2 h - 15 h; Recharge Time: 4.5 h Speakers: 2 x 5 W; IP degree of protection: IP 65 mechanical strength class IK: IK 07; Input power: 40 Watts; Battery capacity: 5200 mAh, 11.1 V; AC Input: - USB; Output: 5V 1A; Power cable: 5m 2*1.0 H05RN; Dimensions: 280x219x87 mm; Weight: 2.71 kg	-

Telescopic tripod C-TR30

- made of powder-coated steel sheet
- for indoor and outdoor use
- rigid tripod construction ensures stability

S-98819	Height adjustment in range: 1,15 - 3.0 m; Maximum load up to 30 kg.	-

Reflector battery LED LUM-X C-CFL60W

- impact resistance
- COB LED technology
- 60W power provides up to 4000 lumens with adjustable light intensity
- Practical on/off button
- battery charge indicator
- Additional handle

S-98815	Luminous flux (Lumen): 6000/600; Luminous flux (Lumen) with diffuser: 4800/480; Angle of incidence of light: 120°; Angle of light with diffuser: 360°; Correlated CCT colour temperature: 6000 K; IP degree of protection: IP 54 mechanical strength class IK: IK 07; Input power: 60 Watts; AC Input: AC 100-240V, 50-60HZ AC; Output: AC socket 250V 13A *2; Power cable: 5m 3*1.5 H07RN; Dimensions: 306x265x102 mm; Weight: 3.2 kg	-

Double tripod support, cpl. 4 screws m8

- made of powder-coated steel sheet
- for indoor and outdoor use

S-98821	Maximum load up to 40 kg	-		

Telescopic tripod C-TR18

- made of powder-coated steel sheet
- for indoor and outdoor use
- rigid tripod construction ensures stability

S-98817	Height adjustment in range: 1,10 - 1.80 m; Maximum load up to 40 kg.	-

Magnetic lamp holder C-MH

- Strong magnetic holder designed for mounting and positioning large worklights on any magnetic surface
- rapid installation of the lamp in any position

S-98825		-		

Diffuser for spotlight series LUM-X LD-360

- distributes and softens light

S-98823		-		

Powered tools

SDS Plus RH26 Rotary Impact Hammer

- SDS-Plus chuck
- 3 Operating modes plus chisel adjuster with 8 positions.
- Switch with interlock function in „ON“ mode
- Smooth speed control allows you to precisely adjust the rotational speed of the device to the task
- Efficient cooling system ensures optimum working temperature
- A safety clutch protects the user and the machine in the event of a sudden blockage of the tool.
- Anti-dust motor cover protects against the harmful effects of dust and helps to extend the service life of the device
- The swivel cord cover prevents kinking and reduces risk of damage.
- Accessories included: 1x SDS-PLUS 8x150mm drill bit, 1x SDS-PLUS 10x150mm drill bit, 1x SDS-PLUS 12x150mm drill bit, 250mm SDS-PLUS pointed chisel, 14x250 flat chisel, extra handle, Drilling depth stop, Chuck grease, Wiping cloth

S-98500	Type of chuck SDS Plus; Rated Input Power 720 W.; Speed at no load 0-1300 r/min; Impact Rate 0-4500 BPM; Impact energy 3.0 J; Max. drilling diameter; Concrete 26 mm; Steel 13mm; Wood 30 mm; Weight (without accessories) approx. 2.7 kg; Protection Class II; Power cord length: 4M; Noise level: 102db	-

SDS MAX RH40VS Rotary Impact Hammer

- SDS-MAX-1 chuck
- 2 Operating modes plus chisel adjuster with 12 positions.
- Switch with interlock function in „ON“ mode
- Anti-vibration technology reduces machine vibrations, protecting the operator from the harmful effects of vibrations.
- The ECS electronic speed stabilization system maintains the rotational speed at heavy loads
- The "Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up.
- Speed control allows you to adjust the power and rotational speed to the task
- A safety clutch protects the user and the machine in the event of a sudden blockage of the tool.
- The power indicator shows the power cord is broken or the supply voltage is lost
- Service reminder light signals the need to service the device
- The gear housing made of magnesium alloy reduces weight and provides better heat dissipation from the inside of the gear
- A 4-metre-long power cord allows you to work in areas of up to 64m² without the need to re-plug
- Accessories included: 1x SDS-MAX 16x320 drill bit, 1x SDS-MAX 22x320mm drill bit, SDS-MAX 350mm pointed chisel, SDS-MAX 25x350mm flat chisel, extra handle, drilling depth limiter, Chuck grease, Wiping cloth

S-98510	Type of chuck SDS-max; Rated voltage 230-240 V ~; Rated frequency 50 Hz; Rated input power 1350 W.; Rated speed without load 150-516 r / min; Impact rate 3120 BPM; Impact energy 133; Max. drilling diameter; Concrete 40 mm; Weight (without accessories) approx. 7.1 kg; Protection Class II; Power cord length: 4M; Noise level: 110dB	-

Demolition hammer Hex 30mm DHH48J

- Hex chuck 30MM
- Lock switch „ON“
- Allows continuous operation without the need to hold the switch.
- Anti-vibration technology reduces machine vibrations, protecting the operator from the harmful effects of vibrations.
- The ECS electronic speed stabilization system maintains the rotational speed at heavy loads
- The gear housing made of magnesium alloy reduces weight and provides better heat dissipation from the inside of the gear
- High impact energy and robust design thanks to a large diameter of the FI 52MM cylinder.
- The additional grease chamber guarantees sufficient lubrication of the transmission parts in heavy-duty operating conditions to extend service intervals.
- The power indicator shows the power cord is broken or the supply voltage is lost
- Service reminder light signals the need to service the device
- Accessories included: 1x Pointed Chisel 410mm Hex 30mm, 1x Flat Chisel 30x410mm Hex 30mm, Extra handle, Chuck grease, Wiping cloth

S-98524	Type of chuck HEX 30mm; Rated voltage 220-240V ~; Rated frequency 50Hz; Rated input power 1750W; Impact rate 1700 BPM; Impact energy 48 J; Weight (without accessories) 15 kg; Protection Class II; Power cord length: 4M; Noise Level 105db	-

Angle grinder AG125QVS

- disc diameter 125mm
- The "anti-restart" system prevents restart in case of power failure
- The "Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up.
- The ECS electronic speed stabilization system maintains the rotational speed at heavy loads
- a quick-release blade guard allows for tool-free adjustment and quick adaptation of the device to the specific task
- special design ventilation inlets and anti-dust protection of the rotor and stator allow you to work in very dusty environments.
- speed control allows you to adjust the power and rotational speed to the specific task
- a 4-metre-long power cord allows you to work in areas of up to 64m² without the need to change the power source
- accessories included: extra handle, protective cover, external flange key, internal flange, external flange, 1x set of carbon brushes

S-98202	Rated voltage: 230V; Rated frequency: 50HZ; Power: 1400W; Rotation speed: 3000-10500 rpm; Disc Diameter: 125mm; Thread Type: M14; Protection Class: II; Power cord length: 4M; Weight: 2.6 Kg	-

Angle grinder AG230Q

- disc diameter 230 mm
- The "anti-restart" system prevents restart in case of power failure
- The "Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up.
- a quick-release blade guard allows for tool-free adjustment and quick adaptation of the device to the specific task
- special design ventilation inlets and anti-dust protection of the rotor and stator allow you to work in very dusty environments.
- a 4-metre-long power cord allows you to work in areas of up to 64m2 without the need to change the power source
- accessories included: extra handle, protective cover, external flange key, internal flange, external flange, 1x set of carbon brushes

S-98210	Rated voltage: 230V; Rated frequency: 50HZ; Power: 3000W; Rotation speed: 6500 rpm; Dial Diameter: 230mm; Thread Type: M14; Protection Class: II; Power cord length: 4M; Weight: 6.6 Kg	-

HM14VS mixer

- 2-gears
- switch with lock function in „ON" mode
- The "anti-restart" system prevents restart in case of power failure
- The „Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up
- The ECS electronic speed stabilization system maintains the rotational speed at heavy loads
- speed control performed with a potentiometer
- accessories included: Stirrer Ø 120x600, 2x flat spanner for mounting the stirrer

S-98540	Rated voltage: 230V; Rated frequency: 50HZ; Power: 1400W; Rotation speed: 1 gear 150-300 / 2 gear 300-650 RPM; Thread Type: M14; Protection Class: II; Power cord length: 4M; Weight: 5.3 Kg	-

Circular saw for steel cutting 2200W SSP355

- Shield
- spindle lock
- lockable switch
- transport lock
- vice with cutting angle

S-98632	220-240V/50Hz; Nominal input power: 2200 W; Speed at no load: 1500r/min; Blade diameter: Ø355 mm; Blade mounting diameter 25.4 mm; Maximum cutting capacity: ; Soft Steel Sheet: Max thickness: 12 mm, 1/2" Max. 90° square pipe: 120x120 mm; 4-3/4" x 4-3/4" Max. Square tube at a 45° angle: 89x89 mm; 3-1/2" x 3-1/2" Max 90° rectangular pipe: 95x180 mm; 3-3/4" x 7-1/8" Max. rectangular pipe at 45° angle: 78x110 mm; 3-1/8" x 4-3/8" Max. length of round pipe: at 90°: Ø 130 mm; Ø 5-1/8" Max. length of round pipe: at 45°: Ø 105 mm; Ø 4-1/8"; Power cord length: 2 m	-

HM19VS mixer

- 2-gears
- switch with lock function in „ON" mode
- The "anti-restart" system prevents restart in case of power failure
- The „Soft Start" system limits the inrush current, in order to avoid sudden current surges and jerking on start-up
- The ECS electronic speed stabilization system maintains the rotational speed at heavy loads
- speed control performed with a potentiometer
- accessories included: Stirrer Ø 160x600, 2x flat spanner for mounting the stirrer

S-98542	Rated voltage: 230V; Rated frequency: 50HZ; Power: 1900W; Rotation speed: 1 gear 150-300 / 2 gear 300-650 RPM; Thread Type: M14; Protection Class: II; Power cord length: 4M; Weight: 5.8 Kg	-

**Diamond drilling rig 2200W
DDP202**

- spindle with double thread
- gearshift knob
- connection to vacuum cleaner
- water connection
- lockable switch and stepless adjustment
- PRCD switch
- Power cord made of polyurethane
- vials
- Additional handle
- accessories included: wrenches for unscrewing the drill bit, washer for easy removal of accessories, set of replaceable brushes, safety goggles and plugs, rapid connectors for water and air

S-98600	2200W Nominal capacity ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 10 A ; Max. drilling diameter (portable) 162 mm ; Max. drilling diameter with drill stand 202 mm ; No-load speed 650/1300/2600 rpm ; Spindle thread size 1-1/4" UNC & G1/2" ; Drilling diameter in teeth 1/2/3 162/82/42 ; Drilling diameter at drill stand at 1/2/3 speed 202/102/62 ; Compatible tripod DRP202 ; Degree of protection IP32 ; Protection class I ; Weight approx. 7.8 kg ; Length of power cord 3 m		

**Stand for diamond drill
DRP202**

- device holder
- cart
- column
- vials
- transport handle
- level adjustable foot
- gearbox with crank
- wheelchair lock
- inclination

S-98606	Maximum drilling diameter 202 mm ; Dimensions of column 60x62x850 ; Travel length 510 mm ; Clamp holder size ø60 mm ; Weight approx. 11.5 kg ; Compatible with drilling rig DDP202				

**Diamond drilling rig 3300W
DDP402**

- mandrel
- gearshift knob
- mounting foot
- vial
- Water connection with valve
- brushstops
- machine load index
- LED screen
- on-off switch
- control LEDs
- PRCD switch
- accessories included: two wrenches to unscrew the drill bit, plugs, splinterguard, washer to facilitate unscrewing the drill bit, set of carbon brushes

S-98603	3300W Nominal capacity ; Nominal voltage 220-230 V ; Nominal frequency 50/60 Hz ; Current 16 A ; Max. drilling diameter 402 mm ; No-load speed 350/700/1100 rpm ; Spindle thread size 1-1/4" UNC ; Drilling diameter in gear 1/2/3 402/202/102 ; Compatible tripod DRP402 ; Degree of protection IP32 ; Protection class I ; Weight approx. 13.5 kg ; Length of power cord 3 m		

**Stand for diamond drill
DRP402**

- device holder
- cart
- column
- vials
- transport handle
- Level adjustable foot
- reduction gear with crank
- wheelchair lock
- transport wheels
- inclination

S-98609	Maximum drilling diameter 402 mm ; Dimensions of column 80x75x1000 ; Travel length 650 mm ; Mounting plate size 60 mm ; Weight approx. 18.5 kg ; Compatible with DDP402 drill rig				

Tripod anchor kit

S-98612	Size M12x180	-		

Hydronet

- connector
- manometer
- tank
- conveyor belt
- brass pump

S-98615	Total volume 13L ; Nominal capacity 10L ; Working pressure 1.7-3.8 bar	-		

High-pressure cleaner HPC180BI

- Induction motor with copper winding
- suction-and-discharge brass pump
- Total Stop system
- Thermal Protection
- built-in detergent tank
- hose drum
- chemical dosage control
- Accessories included: Spray gun with brass fittings, Steel Lance with a quick-connect coupling, Turbo Nozzle, Set of 5 Spray Tips, 10 m Steel Braided High-pressure Hose, Universal Brush, Adapter, Water Filter

S-98902	Rated voltage: 220-230V; Rated frequency: 50HZ; Power: 3000 watts; Maximum pressure: 180 Bar Max; Working pressure: 140 Bar; 552 L / H Max; 10 m hose; Weight: 25.6 Kg; Protection Class: AND; Power cord length: 5M	-		

Set: 5 quick coupler tips

- 5 quick coupler spray tips: 0°, 15°, 25°, 40°, detergent

S-98931	Compatible with cleaner models: S-98902 If used with the S-98927 metal quick-release lance, it is also suitable for: S-97905	-		

5in1 nozzle

- 5 spray options in one quick-release tip (0°, 15°, 40°, 0° for detergent, 40° for detergent)

S-98933	Compatible with cleaner models: S-98902 If used with the S-98927 metal quick-release lance, it is also suitable for: S-97905	-		

Turbo nozzle

- efficient: cleans up to 40% faster than a standard nozzle
- robust: powerful, rotating jet removes firmly attached dirt from solid hard surfaces

S-98935	Compatible with cleaner models: S-98902 If used with the S-98927 metal quick-release lance, it is also suitable for: S-97905	-		

Adapter

- adapter for easy connection with accessories

S-98937	Compatible with cleaner models: S-97905, S-98902	-		

Adjustable lance

- precise regulation of the water stream
- made of high-quality materials such as brass, Inox for longer service life
- designed for cleaning large surfaces

S-98923	Compatible with cleaner models: S-97905, S-98902	-	-	-

High-pressure cleaner gun

- high-quality high-pressure cleaner gun with a threaded connection and trigger lock

S-98929	Compatible with cleaner models: S-97905, S-98902	-	-	-

Turbo lance

- High-quality Turbo lance cleans up to 40% faster than a standard nozzle
- strong rotating jet effectively removes dirt from solid, hard surfaces

S-98925	Compatible with cleaner models: S-97905, S-98902	-	-	-

10m steel braided high-pressure hose

- high-pressure hose with a durable, flexible, kink-free structure, resistant to adverse weather conditions and abrasions

S-98939	10 m; Max. 200 bar; Compatible with the S-98902 model	-	-	-

Metal quick-release lance

- Metal lance made of high-quality materials, equipped with brass tips, including ball-bearing quick-connect coupler for trouble-free installation of accessories

S-98927	Compatible with cleaner models: S-97905, S-98902	-	-	-

Extension hose for pressure washer

- high-pressure hose with robust, flexible construction resistant to kinking, adverse weather conditions and abrasion

S-98942	10m ; max 200 bar; Suitable for washer models: S-97905 & S-98902	-	-	-

Foam gun

- high-performance, non-contact foamer for foam thickness
- the option to adjust detergent volume to the flow with a simple turn of the knob
- spray angle adjustment

S-98921	Compatible with cleaner models: S-97901, S-97903, S-97905, S-98902	-	-	-

**Piston paint unit
PSP380**

NEW

- Electric, airless paint unit for use in residential buildings.
- Characteristics
- APPLICATION: for small and medium-sized housing projects
- MATERIALS: water-based and synthetic paints, acrylic, dispersion paints, varnishes, impregnates, primers
- PURPOSE: for interior painting
- FEATURES:
 - InstaClean™ pump filter
 - Low weight
 - Pressure regulator with operating indicator

S-98560	maximum operating pressure - 207 bar; maximum flow rate - 1.4 l/min; maximum nozzle size - 0.019"; maximum hose length - 45 m; motor - 7/8 hp; power supply 230 V; fuse 16 A; weight - 13 kg	-

**Piston paint unit
PSP655**

NEW

- Electric paint unit for painting large residential and industrial buildings
- Characteristics
- APPLICATION: medium for large residential and small commercial projects
- MATERIALS: water-based and synthetic paints, acrylic, dispersion paints, varnishes, impregnates, primers
- FEATURES:
 - precise control of the unit ensures smooth painting over a wide range of pressures
 - LCD display
 - industrial quality high torque TEFC DC motor
 - lifetime pump body
 - handy and functional pull-out frame holder
 - high-pressure filter
 - interchangeable Pro-Duty pump

S-98564	maximum operating pressure - 227 bar ; maximum flow rate - 2.3 l/min; maximum nozzle size - 0.025"; maximum hose length - 45 m; motor - 1.0 hp TEFC DC; power supply 230V; fuse 16A ; weight - 29 kg	-

**Piston paint unit
PSP555**

NEW

- Electric paint unit for painting rooms for small and medium-sized contractors
- Characteristics
- APPLICATION: from medium to large residential projects and medium-sized industrial buildings
- MATERIALS: water-based and synthetic paints, acrylic, dispersion paints, varnishes, impregnates, primers
- FEATURES:
 - precise control
 - LCD display
 - industrial quality high torque TEFC DC motor
 - lifetime pump body
 - large, high-pressure filter
 - interchangeable Pro-Duty pump

S-98562	maximum operating pressure - 227 bar; maximum flow rate - 2 l/min; maximum nozzle size - 0.023"; maximum hose length - 45 m; motor - 7/8 hp; power supply 230 V; fuse 16 A; weight - 23 kg	-

**Piston paint sprayer unit
TSP1750HR**

NEW

- Unit for intensive work on large projects requiring heavy-duty products.
- MATERIALS: Putty and finishing compounds, varnishes, impregnates, primers, elastomers, waterproofing agents, epoxy, synthetic, acrylic, water-based, dispersion paints
- Mechanical gearbox with reinforced design, made of hardened steel.
- Chrome-plated frame with pneumatic wheels
- Digital LED display
- Brushless fan-cooled motor

S-98566	maximum operating pressure 227bar; maximum flow rate 5.1 l/min; maximum nozzle size (1 gun) - 0.039"; maximum nozzle size (2 guns) 0.029"; maximum hose length 90 m; motor power - 2.8 HP power supply 230 V; protection 16 A; weight - 54 kg	-

Rev-Tip spray nozzle 517

NEW

• Nozzles are available in various sizes. They spray all types of paints and varnishes as well as structural materials (putty, etc.)

Code	Info	Box	Mesh	Unit
ARV517	0.017", spraying width: 25 cm, primers/paints for covering internal and external walls	-	1	pc
ARV521	0.021", spraying width: 25 cm, primers/paints for covering internal and external walls	-	1	pc

ARV511	0.011", spraying width: 25 cm, protective varnishes and paint	-	1	pc
ARV515	0.015", spraying width: 25 cm, primers/paints for covering internal and external walls	-	1	pc
ARV519	0.019", spraying width: 25 cm, primers/paints for covering internal and external walls	-	1	pc
ARV631	0.031", spraying width: 30 cm, smooth finish/heavy protective coatings/two-component coatings	-	1	pc
ARV635	0.035", spraying width: 35 cm, smooth finish/heavy protective coatings/two-component coatings	-	1	pc

REV-GUARD nozzle holder

NEW

• Rev-Guard nozzle holder to fit all guns with 7/8" threads

Code	Info	Box	Mesh	Unit
855052	7/8"	-	1	pc

Gun extension

NEW

• Tools with a further reach are ideal for use in hard-to-reach areas such as stiles, staircases or ceilings with vaulted ceilings. They allow you to increase the reach and efficiency of spraying without a ladder or scaffolding.
• Hydrodynamic nozzles and extensions can be attached directly to the hydrodynamic gun to be used for spraying protruding parts of the ceiling and landings.

Code	Info	Box	Mesh	Unit
865603	18" 45cm	-	1	pc

Repair kit/pump insert PSP 380

NEW

• Complete material pump insert for PSP380 unit

Code	Info	Box	Mesh	Unit
173759		-	1	pc

Filter insert for TSP1750HR 30M – grey

NEW

FM2021	Filter 60 mesh black – emulsion, acrylic, facade paints	-	1	pc
FM2022	Filter 100 mesh blue – primers, oil paints	-	1	pc

Gun filter 009/500 50M blue

NEW

• Material filter (emulsions, latex, acrylic, epoxy) for gun 009/500 – mesh size 50,

Code	Info	Box	Mesh	Unit
FM2013	blue	-	1	pc

Filter insert for PSP555,PSP655 60M

NEW

• Filter 60 mesh black – emulsion, acrylic, facade paints

Code	Info	Box	Mesh	Unit
FM2028		-	1	pc

High-pressure hose 1/4" x 50' 15 m

NEW

• The hydrodynamic hose provides greater flexibility and durability. It has swivel couplings and spring guards at both ends to connect hydrodynamic hoses. Whip-end hoses can also be added to increase flexibility and reduce operator fatigue.

Code	Info	Box	Mesh	Unit
865674	15 m	-	1	pc

Hose protection sleeve roll (20 x 15 m) //

NEW

• Polypropylene hose sleeve to protect against damage and dirt

865696	20 x 15 m	-	1	pc

Hose protection sleeve 15m //

NEW

• Polypropylene hose sleeve to protect against damage and dirt

865696/15M	15 m	-	1	pc

TSO piston oil 0.2 l //

NEW

• Piston lubrication oil for painting equipment

867670	0.2 l	-	1	pc
188392	1 l	-	1	pc

Corocek preservative liquid 1 l //

• Maintenance and washing liquid for paint and putty-spraying units. Concentrate, yielding approximately 12l litres of preparation (dilutes with water).

• Used for the maintenance of all pumps in hydrodynamic units, particularly during their prolonged shut-down, over 7 days.

• The fluid protects paint units against frost, corrosion and premature wear of components, moisturises and prevents sticking of valves, seals and washers, non-flammable.

865714	1 l	-	1	pc

Power Generator //

• portable single-phase generator recommended for single-phase receivers not fitted with sensitive electronic systems
 • compact and ergonomic design
 • thermal switch and oil level sensor
 • high-quality Synchron generator and Honda GX200 engine ensuring long and failure-free operation of the device
 • ideal for long hours of uninterrupted work

P-1030	1-phase; Power max. / rated 3 kW / 2.7 kW; Voltage 230V; 2x 16A 230V Schuko socket; Fuel type Petrol; Capacity: 3.1L tank; 4-stroke engine Honda GX200; Weight: 38 kg	-

Power Generator //

• portable single-phase generator recommended for single-phase receivers not fitted with sensitive electronic systems
 • thermal switch and oil level sensor
 • high-quality Synchron generator and Honda GX390 engine ensuring long and failure-free operation of the device
 • ideal for long hours of uninterrupted work

P-1062	1-phase; Power max. / rated 6.2 kW / 5.6 kW; Voltage 230V; 1x 16A 230V Schuko socket 1x 32A 3P IP44 socket; Fuel type Petrol; Capacity: 6.2L tank; 4-stroke engine Honda GX390; Weight: 70 kg	-

Power Generator //

• portable single-phase generator, designed to supply devices that require stabilized current parameters
 • thanks to the AVR system, it is perfect for powering electronic devices or other equipment that requires stable current parameters
 • thermal switch and oil level sensor
 • high-quality Synchron generator and Honda GX390 engine ensuring long and failure-free operation of the device
 • ideal for long hours of uninterrupted work
 • high-quality Automatic Voltage Regulation system (AVR) – voltage regulation +/- 2%

P-1062R	1-phase; Power max. / rated 6.2 kW / 5.6 kW; Voltage 230V; 1x 16A 230V Schuko socket 1x 32A 3P socket IP44; AVR digital voltage stabilisation; Fuel type Petrol; Tank capacity: 6.2L; 4-stroke engine Honda GX390; Weight: 70 kg	-

Power Generator

- high-power, three-phase and single-phase portable generator characterized by very low fuel consumption and high rated power
- allows connecting all kinds of tools
- suitable for all three-phase and single-phase devices not fitted with sensitive electronic systems
- thermal switch, magneto-thermal switch and oil level sensor
- high-quality Synchron generator and Honda GX390 engine ensuring long and failure-free operation of the device
- ideal for long hours of uninterrupted work

P-3087	3-phase ; Power 3~ max. / rated 8.7 kVA / 7.8 kVA (cos φ 0.8) ; 1~ max. power / rated 6.2 kW / 5.6 kW ; Voltage 400V/230V ; 1x 16A 230V Schuko socket 1x 16A 5P IP44 socket ; Fuel type Petrol ; Capacity: 6.2L tank ; 4-stroke engine Honda GX390 ; Weight: 89 kg	-

Power Generator

- High-power, three-phase and single-phase portable generator characterized by very low fuel consumption and high rated power
- Allows connecting all kinds of tools.
- Designed to supply devices that require stabilized current parameters
- Thanks to the AVR system, it is perfect for powering electronic devices or other equipment that requires stable current parameters
- Thermal switch, magneto-thermal switch and oil level sensor
- High-quality Synchron generator and Honda GX390 engine ensuring long and failure-free operation of the device
- Ideal for long hours of uninterrupted work
- High-quality Automatic Voltage Regulation system (AVR) – voltage regulation +/- 1%

P-3087R	3-phase ; Power 3~ max. / rated 8.7 kVA / 7.8 kVA (cos φ 0.8) ; 1~ max. power / rated 6.2 kW / 5.6 kW ; Voltage 400V/230V ; 1x 16A 230V Schuko socket 1x 16A 5P socket IP44 ; Digital voltage stabilisation AVR ; Fuel type Petrol ; Capacity: 6.2L tank ; 4-stroke engine Honda GX390 ; Weight: 89 kg	-

Drills

Metal Drill Hss

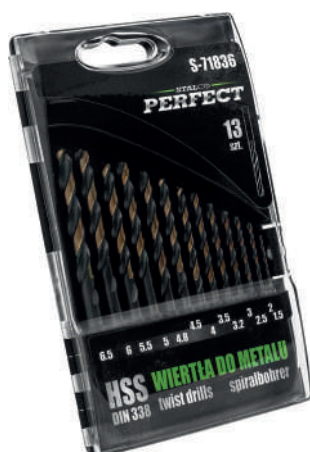

- twist drill of high speed steel HSS in accordance with DIN 338
- cylindrical handle
- special coating that provides a low friction coefficient and extends the life of the drill
- perfectly polished edge ensures even faster and more accurate drilling
- ground spiral provides high accuracy and quick removal of excavated material
- the 2-step polished tip at an angle of 135° allows for drilling without scoring

HSS step drill bit

- HSS (High Speed Steel) - high alloy steel
- cylindrical handle
- Ground spiral groove for optimum chip removal and reduced vibration
- laser-engraved dimensions
- Maximum cutting smoothness thanks to axial and radial grinding
- Cross-grinding of the tip allows easy starting, drilling without the need for a spike or pre-drilling

Icon	Item	Box	Unit	Icon	
	S-72520	Drill bit Ø 4-12 mm ; Stroke 1 mm ; Handle Ø 6 mm	1	pc	-
	S-72522	Drill bit Ø 4-20 mm ; Stroke 2 mm ; Handle Ø 8 mm	1	pc	-
	S-72524	Drill bit Ø 6-30 mm ; Stroke 2 mm ; Handle Ø 10 mm	1	pc	-

3x HSS step drill bit set

- Drill Bit Set S-72520, S-72522, S-72524

Icon	Item	Box	Unit	Icon	
	S-72526	Drill; Impact; Chuck ; Ø 4-12 mm ; 1 mm ; Ø 6 mm ; Ø 4-20 mm ; 2 mm ; Ø 8 mm ; Ø 6-30 mm ; 2 mm ; Ø 10 mm	1	pc	-

HSS-TiN step drill bit

- TiN structural coating [titanium nitride coating].
- cylindrical handle
- Ground spiral groove for optimum chip removal and reduced vibration
- laser-engraved dimensions
- Maximum cutting smoothness thanks to axial and radial grinding
- Cross-grinding of the tip allows easy starting, drilling without the need for a spike or pre-drilling

	S-72532	Drill bit Ø 6-30 mm ; Stroke 2 mm ; Handle Ø 10 mm	1	pc	-

3x HSS-TiN step drill bit set

- Drill Bit Set S-72528, S-72530, S-72532

Icon	Item	Box	Unit	Icon	
	S-72534	Drill; Impact; Chuck ; Ø 4-12 mm ; 1 mm ; Ø 6 mm ; Ø 4-20 mm ; 2 mm ; Ø 8 mm ; Ø 6-30 mm ; 2 mm ; Ø 10 mm	1	pc	-

HSS dredging

- 3 blades
- cylindrical shaft
- right-wing
- vertex angle 90
- Ideal for countersinking and milling without burrs and vibrations
- best results at low cutting speed
- for machining steel, cast iron, light and non-ferrous metals

Icon	Icon	Icon	Icon	Icon
S-72501	Recess Ø 6.3 mm ; Length - 45 mm ; Handle Ø 5 mm	1	pc	-
S-72503	Hollow Ø 12.4 mm ; Length - 56 mm ; Handle Ø 8 mm	1	pc	-
S-72505	Hollow Ø 20.5 mm ; Length - 63 mm ; Handle Ø 10 mm	1	pc	-

3x HSS countersink set

- Countersink set S-72501, S-72503, S-72505

Icon	Icon	Icon	Icon	Icon
S-72506	Countersink; Chamfer; Handle ; Ø 6.3 mm; 45 mm; Ø 5 mm; Ø 12.4 mm; 56 mm; Ø 8 mm; Ø 20.5 mm; 63 mm; Ø 10 mm	1	pc	-

HSS-TiN countersinking

- 3 blades
- cylindrical shaft
- right-wing
- vertex angle 90
- Ideal for countersinking and milling without burrs and vibrations
- best results at low cutting speed
- for machining steel, cast iron, light and non-ferrous metals

Concrete Drill V3 Sds Plus

- causes microcracks in the drilled material
- achieves a noticeably higher drilling speed
- increased impact in contact with rebar (+35%)
- increased resistance of the tip to contact with rebar
- reduced probability of the drill getting blocked in the material as a result of contact with rebar
- centering the tip ensures immediate drilling and prevents the drill bit from slipping off smooth surfaces
- improved Vario KVS weave
- conical spiral
- increased speed and endurance
- fracture resistance
- for hard concrete, reinforced concrete, natural stone
- rotary hammers with SDS PLUS handle

Concrete Drills Sds Plus X5 X-Pack

- drill bit made of high quality alloy steel, creating a reliable tool for work
- the innovative carbide cutting geometry guarantees an aggressive demolition effect
- 4 helix spiral for optimal removal of drill cuttings
- the spiral's reinforced bevels ensure optimal drilling in the event of contact between the drill bit and the rebar
- core with reinforced spiral geometry gives more energy upon impact with a carbide-tipped core bit
- for hard concrete, reinforced concrete, natural stone
- rotary hammers with SDS PLUS handle

Concrete Drill Sds Plus X5

- drill made of high quality steel alloy, making a reliable tool
- innovative carbide cutting geometry ensures an aggressive demolition effect
- 4 helix spiral for optimal removal of drill cuttings
- enhanced spiral bevels provide optimum drilling in contact with rebar
- core with reinforced spiral geometry provides more energy upon impact with carbide-tipped drill bit
- for hard concrete, reinforced concrete, natural stone
- rotary hammers with SDS-MAX chuck

Concrete Drill Sds Max X5

- drill head made of sintered carbides for maximum durability
- drill made of high quality steel alloy, making a reliable tool
- innovative carbide cutting geometry ensures an aggressive demolition effect
- enhanced spiral bevels provide optimum drilling in contact with rebar
- core with reinforced spiral geometry provides more energy upon impact with carbide-tipped drill bit
- for hard concrete, reinforced concrete, natural stone
- rotary hammers with SDS-MAX chuck

Glass drill bit

- Tungsten carbide tip hardness: 89.5 HRA
- Double cutting plate
- rapid-change mandrel, easy to install and remove, no slipping
- end stroke less than 1% of total length
- Precise sharpening, good drilling sharpness
- Shank hardness 30 HRC

Diamond concrete hole saw

- for making holes for the installation of electrical, distribution and vacuum boxes
- designed for non-hammered drilling
- turbo diamond segment
- spiral-shaped excavated material transport surface
- ejection openings
- recommended adapters: SDS plus adapter S-70801, HEX adapter S-70803

Icon	Icon	Icon	Icon	Icon

Carbide cutting disc X-LOCK

- for cutting wood, plastic, plastics, plaster surfaces and thin metal components;
- cutting edge made of carbide grit made using laser melting technology; long service life and safe operation with a variety of materials;
- slim body design with expansion gap prevents blade distortion and ensures extremely high cutting speeds;
- x-LOCK attachment system – the fastest accessory change system on the market. Also suitable for angle grinders for nuts and threads

Saw blade for cutting steel

- does not heat the material – cutting is done by cutting
- teeth made of high-quality carbide
- perfectly smooth cut edge
- up to 10 times the service life of an alumina wheel of similar size

Icon	Icon	Icon	Icon	Icon
S-71980	Ø355 x 2/2.4 x Ø25.4; 72 t; max. 1500 rpm	1/0/10	pc	-

Aluminium Cutting Wheel

- cutting wheel for metal sheets, profiles, aluminum elements
- does not discolor the cut material
- does not clog

Icon	Icon	Icon	Icon	Icon

Insulation fasteners

Plastic Pin Dowel For Fixing Insulation

- Material: polyethylene sleeve, glass fibre reinforced polyamide stem
- Application: for installation of thermal insulation in substrates made of: normal concrete, solid ceramic bricks, solid calcium-silicate bricks, expanded clay hollow bricks (with holes), hollow silicate hollow bricks (with holes), autoclaved aerated concrete, aggregate concrete elements

Polyamide Pin Dowel For Fixing Insulation

- Material: dowel made of high-quality polypropylene copolymer, expanding mandrel made of original polyamide with glass fiber
- Purpose: for installing thermal insulation in building materials such as: class C concrete, ceramic brick, aggregate concrete, cellular concrete.
- Max. insulation thickness: 260 mm

FASTENING SYSTEMS

Chemical fasteners

Styrene-free polyester anchor SPA 300

NEW

SPA 300

- professional fastening system for high and medium loads
- can be used in damp and wet substrates
- suitable for old and cracked substrates, additionally reinforcing them
- resistant to external factors
- short setting time (up to 30 minutes)
- no substrate stressing, no bulging or cracking effect, allowing fixing close to edges.
- open cartridges can be reused by changing the mixing nozzle
- can be applied with standard silicone guns

S-64300	300 ml	1/10	pc	-

Styrene-free polyester anchor SPA 410

NEW

SPA 410

Chemical anchoring system

NEW

- 1 x anchor SPA 300
- 4 x mixing nozzle X9S
- 4 x nylon sleeve 12x80 mm
- 4 x threaded anchor M8x110 mm

S-64341		1	set	-

Styrene-free vinyl ester anchor SVA 300

NEW

SVA 300

- versatile two-component high-strength vinyl ester resin
- designed for the anchoring of threaded rods and rebar in concrete and masonry under very heavy loads
- high chemical resistance, and the strength of its fixings in low-integrity concrete
- can be used in dry concrete as well as in water-saturated concrete.

Styrene-free vinyl ester anchor SVA 410

NEW

SVA 410

- versatile two-component high-strength vinyl ester resin
- designed for the anchoring of threaded rods and rebar in concrete and masonry under very heavy loads
- high chemical resistance, and the strength of its fixings in low-integrity concrete
- can be used in dry concrete as well as in water-saturated concrete.

S-64343	410 ml	1/10	pc	-

Threaded anchor

- for anchoring in solid wall, perforated wall, cracked and non-cracked concrete and aerated concrete in combination with various cartridge or glass bead mortars. Supplied with nut and washer. Galvanised steel grade 8.8 for internal use.
- for fixing balustrades, high racks, canopies and heavy machinery in concrete, masonry and hard natural stone. For dry or moist surfaces.

S-64380	Class 8.8; M8 x 110 cm; galvanised; 4 pcs.	1/15	pack	-
S-64382	Class 8.8; M10 x 130 cm; galvanised; 4 pcs.	1/10	pack	-
S-64384	Class 8.8; M12 x 160 cm; galvanised; 4 pcs.	1/8	pack	-
S-64386	Class 8.8; M8 x 110 cm; galvanised; 10 pcs.	1/50	pack	-
S-64388	Class 8.8; M10 x 130 cm; galvanised; 10 pcs.	1/25	pack	-
S-64390	Class 8.8; M12 x 160 cm; galvanised; 10 pcs.	1/25	pack	-
S-64392	Class 8.8; M16 x 190 cm; galvanised; 10 pcs.	1/10	pack	-
S-64394	Class 8.8; M20 x 260 cm; galvanised; 10 pcs.	1/10	pack	-

Nylon mesh sleeve for chemical anchors

- ensure even dosing of the resin in the borehole and reduce resin consumption
- centering plug keeps the anchor rod axially aligned and prevents mortar from flowing out of the sleeve
- for use in substrates with voids
- no need to purge and clean the drilled hole

Cleaner - remover

- CPU 41**
- simple to use
 - for use in any position
 - for cleaning fresh polyurethane foam and the gun
 - for: removing grease/oil/glue

S-64641	Capacity: 500 ml	1/12	pc	-

UNIVERSAL Foam Hose

- PUW 20**
- low expansion
 - very efficient
 - rapid drying
 - super lightweight
 - thermal insulation
 - soundproofing
 - new formula
 - For: mounting/insulation/filling

S-64620	Capacity: 750 ml ; Performance: 28 - 32 liters ; (depending on temperature and humidity) ; Full curing time: 24h ; Application temperature: from -5°C (surface), 20 - 25°C (tin). ; Time of epidermal formation: 5 - 10 minutes (20°C/RH 60%) ; Cutting time: 25 - 30 minutes	1/12	pc	-

Foaming gun UNIVERSAL

- PUP 23**
- For: mounting/insulation/filling
 - low expansion
 - very efficient
 - rapid-drying]
 - super lightweight
 - thermal insulation
 - soundproofing
 - new formula

S-64623	Application temperature: from -5°C (surface), 20 - 25°C (container). ; Time of epidermal formation: 5 - 10 minutes (20°C/RH 60%) ; Curing time: 25-30 min ; Curing time: 1.5 - 5 hours depending on temperature and humidity ; Temperature resistance: from -40°C to +90°C ; Performance: 35 - 40 liters (depending on temperature and humidity) ; Capacity: 750 ml	1/12	pc	-

PROFESSIONAL foam gun

- PPL 44**
- For: mounting/insulation/filling
 - low pressure
 - hi performance
 - excellent grip
 - thermal insulation
 - must
 - soundproofing

S-64644	Capacity: 750 ml ; Volume: 42-47 l (with free foam) ; Curing time: 1.5 - 5 hours depending on temperature and humidity ; Application temperature: from +5°C (surface), 20 - 25°C (container). ; Skin formation time: 5-10 minutes ; Processing time: 20-25 minutes ; Temperature resistance: from -40°C to +90°C	1/12	pc	-

Foam gun PROFESSIONAL XXL

- PXX 47**
- For: installation/insulation/low pressure filling
 - very high performance
 - increased productivity
 - thermal insulation
 - for wide connections
 - soundproofing
 - 40% higher foam volume

S-64647	Capacity: 850 ml ; Very large capacity - (up to 70 l) 40% more than other foams ; Application temperature: from +5°C (surface), 20 - 25°C (tin). ; Time of epidermal formation: 8 - 10 minutes (20°C/RH 90%) ; Processing time: 20 - 25 min. ; Temperature resistance: from -40°C to +90°C	1/12	pc	-

Flame retardant foam gun

- POG 50**
- to: electrical switchgear
 - low pressure
 - soundproof
 - hi performance
 - cell resistance
 - prevents the spread of fire
 - soundproofing
 - thermal insulation
 - pistol version

S-64650	Capacity: 750 ml ; Capacity up to 45 liters (depending on temperature and humidity) ; Operating temperature: (substrates from +5° to +30°), (boxes from +10° to +25°) ; Thermal Resistance: -50° to +90° ; Time of epidermal formation: 12 - 16 min (20°/RH 90%) ; Full curing time: 24 h ; Flammability: Highly flammable according to DIN 4102 - B1 ; Class B1 is designed for foaming between mineral and metal building materials up to 50 mm wide.	1/12	pc	-

Foam gun WINTER

- PZU 53**
- For: mounting/insulation/filling
 - low temperatures
 - low pressure
 - hi performance
 - thermal insulation
 - must

S-64653	Capacity: 750 ml ; Volume: 42-47 l (with free foam) ; Curing time: 1.5 - 5 hours depending on temperature and humidity ; Application temperature: from -10°C to +25°C (surface), 0°C (container) ; Skin formation time: 8 -10 minutes ; Processing time: 20-25 minutes ; Temperature resistance: from -40°C to +90°C	1/12	pc	-	

Masonry glue gun

- KMU 62**
- for: brick/concrete/hollow block
 - professional installation
 - hi performance
 - reducing labour costs
 - Fast setting time
 - high strength
 - multi-season
 - pistol version

S-64662	Application temperature: Minimum from -5°C (surface), 20-25°C (container) ; Time of epidermal formation: 5-12 min (23°C, RH 50%) ; Pretreatment time: 60 min (23°C, RH 50%) ; Full curing time: 24 h (23°C, RH 50%) ; Performance: 30 - 45 liters (depending on temperature and humidity) ; Declared capacity per 750 ml container: up to 10 m ² one braid, up to 5 m ² two braids. ; Capacity: 750 ml	1/12	pc	-	

SUPER FAST glue gun

- PSZ 56**
- to: building materials/insulation
 - rapid and clean installation
 - high adhesive strength
 - low pressure
 - rapid drying time
 - thermal insulation
 - soundproofing

S-64656	Capacity: 750 ml ; Properties of the compound: neutral silicone oxime ; Skin formation time 23°C/50% relative humidity: 5 to 20 min. ; Curing time 23°C/50% RH: 2 mm/24h ; Application temperature: from +5°C to +40°C. ; Temperature resistance: from -40°C to +180°C ; Shore hardness A: ISO 868 15-25 ; Volume: 50 - 70 mb. (free foam) ; Skin formation time: from 60 seconds ; Cutting time: 8 - 10 minutes	1/12	pc	-	

Vinegar Universal silicone

- SUO88**
- for indoor and outdoor use
 - handle
 - joints can be painted
 - Resistance to UV radiation
 - use in a wide temperature range
 - for: glass/clinker/ceramic

S-64788	Time of epidermal formation: 20 minutes. ; Temperature resistance: from -40°C to +150°C ; Application temperature: from +5°C to +40°C. ; 280 ml ; Clear	1/12	pc	-	

Polystyrene glue gun

- PST 59**
- to: facades/insulation
 - low pressure
 - rapid drying
 - hi performance
 - rapid and clean installation
 - saving money
 - simple to use
 - pistol version

S-64659	Capacity: 750 ml ; colour: Bright yellow ; Application temperature: from -5°C to +30°C ; Can temperature: optimally +20°C ; Correction time: approx. 4 min. (at: +23°C/ RH 50%) ; Setting time: after 2 h ; Full curing time: 24 hours ; Foam output from a 750 ml container: - ETHICS: 8 m ² - first floor: up to 12 m ² , performance depends on temperature and humidity	1/12	pc	-	

Vinegar Universal silicone

- SUO91**
- for indoor and outdoor use
 - handle
 - joints can be painted
 - Resistance to UV radiation
 - use in a wide temperature range
 - for: glass/clinker/ceramic

S-64791	Time of epidermal formation: 20 minutes. ; Temperature resistance: from -40°C to +150°C ; Application temperature: from +5°C to +40°C. ; 280 ml ; White colour	1/12	pc	-	

Silicone with sanitary vinegar

- SSO94**
- resistant to moisture, fungi and mildew
 - good adhesion to ceramics and glass
 - weather resistant
 - inside/outside
 - resistant to fungi and mildew
 - use in a wide temperature range
 - for: kitchen/bathroom

S-64794	Time of epidermal formation: 20 minutes.; Temperature resistance: from -40°C to +150°C.; Application temperature: from +5°C to +40°C.; 280 ml; Clear	1/12	pc	-

Universal silicone Neutral

- SUN27**
- handle
 - for indoor and outdoor use
 - does not cause corrosion of metals
 - Resistance to UV radiation
 - use in a wide temperature range
 - for: glass/wood/ceramics

S-64827	Time of epidermal formation: 7 minutes.; Temperature resistance: from -40°C to +150°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

Silicone with sanitary vinegar

- SSO97**
- resistant to moisture, fungi and mildew
 - good adhesion to ceramics and glass
 - weather resistant
 - inside/outside
 - resistant to fungi and mildew
 - use in a wide temperature range
 - for: kitchen/bathroom

S-64797	Time of epidermal formation: 20 minutes.; Temperature resistance: from -40°C to +150°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

Sanitary silicone Neutral

- SSN00**
- resistant to moisture, fungi and mildew
 - Good adhesion to ceramics, PVC and glass
 - resistant to cleaning agents and detergents
 - inside/outside
 - resistant to fungi and mildew
 - use in a wide temperature range
 - for: kitchen/bathroom

S-64800	Skin formation time: 5 to 20 minutes.; Temperature resistance: from -40°C to +150°C.; Application temperature: from +5°C to +40°C.; 280 ml; Clear	1/12	pc	-

Universal silicone Neutral

- SUN24**
- handle
 - for indoor and outdoor use
 - does not cause corrosion of metals
 - Resistance to UV radiation
 - use in a wide temperature range
 - for: glass/wood/ceramics

S-64824	Time of epidermal formation: 7 minutes.; Temperature resistance: from -40°C to +150°C.; Application temperature: from +5°C to +40°C.; 280 ml; Clear	1/12	pc	-

Sanitary silicone Neutral

- SSN03**
- resistant to moisture, fungi and mildew
 - Good adhesion to ceramics, PVC and glass
 - resistant to cleaning agents and detergents
 - inside/outside
 - resistant to fungi and mildew
 - use in a wide temperature range
 - for: kitchen/bathroom

S-64803	Skin formation time: 5 to 20 minutes.; Temperature resistance: from -40°C to +150°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

High temperature silicone 300°C

- SWO82**
- rapid drying
 - handle
 - oil-resistant
 - inside/outside
 - uv resistance
 - Temperature resistance of 300°.
 - industry/automotive

S-64782	Skin formation time: up to 20 minutes. ; Temperature resistance: from -40°C to +250°C, temporarily up to +300°C; Application temperature: from +5°C to +40°C.; 280 ml; Red	1/12	pc	-

Universal acrylic

- AUW70**
- easy to apply and sand
 - odourless
 - silicone isocyanate
 - inside/outside
 - contains no silicone or isocyanates
 - can be painted
 - walls/ceilings

S-64770	Skin formation time: 10 to 15 minutes. ; Temperature resistance: from -20°C to +75°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

High temperature packing 1200°C

- UWT85**
- resistance to direct fire
 - good grip
 - black colour based on sodium silicate
 - indoor use
 - for use in direct fire
 - temperature resistance of 1200°C
 - fireplaces / cookers

S-64785	Full curing time: 24 hours; After the sealant has fully set, gradually increase the temperature during initial use. ; Temperature resistance: from -20°C to +1200°C, temporarily up to +1600°C; Application temperature: from +5°C to +35°C.; 280 ml; Black colour	1/12	pc	-

Flexible lightweight acrylic

- ALE73**
- high flexibility
 - easy to apply and sand
 - handle
 - w
 - contains no silicone or isocyanates
 - uv resistance
 - facades/walls

S-64773	Time of epidermal formation: ≈5 minutes. ; Temperature resistance: from -20°C to +75°C.; Application temperature: from +5°C to +30°C. ; 300 ml; White colour	1/12	pc	-

MULTI-PRO silicone

- SMP06**
- special sanitary protection
 - excellent grip
 - for indoor / outdoor use
 - fungus- and mould-resistant
 - high strength adhesive
 - for: roof windows and bathrooms

S-64809	White colour	1/12	pc	-
S-64812	Beige colour	1/12	pc	-
S-64815	colour grey	1/12	pc	-
S-64818	Brown colour	1/12	pc	-
S-64821	Black colour	1/12	pc	-

Acrylic express fast

- EXPRESS AES76**
- Excellent adhesion to the substrate
 - easy to apply and sand
 - rapid drying
 - w
 - fast curing
 - can be painted
 - ceilings/walls

S-64776	Skin formation time: 10 to 15 minutes. ; Temperature resistance: from -20°C to +75°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

Granular acrylic for façades

- AFZ79**
- high flexibility
 - easy to apply and sand
 - resistance to temperature fluctuations
 - indoors/outdoors
 - adhesion to moist surfaces
 - can be painted
 - walls/facades

S-64779	Skin formation time: 10 to 15 minutes.; Temperature resistance: from -20°C to +75°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

Fixing Water-based glue

- KWM36**
- Excellent adhesion to porous surfaces
 - Safe for decorative materials
 - rapid drying
 - w
 - contains no solvents
 - replaces mechanical fixings
 - for: plaster/wood/polystyrene foam

S-64836	Skin formation time: 25 to 35 minutes.; Temperature resistance: from -20°C to +75°C.; Application temperature: from +5°C to +40°C.; 280 ml; White colour	1/12	pc	-

Bituminous roof sealant

- UDB33**
- Excellent adhesion to tar paper and bituminous substrates
 - also used on damp substrates
 - safe for polystyrene foam
 - inside/outside
 - contains no silicone or isocyanates
 - Resistance to UV radiation
 - for: sheet metal/brick/tar paper

S-64833	Time of epidermal formation: ≈ 30 minutes.; Temperature resistance: from -30°C to +80°C.; Application temperature: from +5°C to +35°C.; 280 ml; Black colour	1/12	pc	-

Elastic polyurethane adhesive 310 ml

- KEP54**
- reduces vibration and oscillation
 - Excellent bonding properties to a wide range of materials
 - resistance to high dynamic loads
 - inside out
 - elastic side
 - can be painted
 - for: aluminum/metal/concrete

S-64854	Time of epidermal formation: ≈ 50 minutes.; Temperature resistance: from -40°C to +90°C.; Application temperature: from +5°C to +30°C.; 310 ml; Black colour	1/12	pc	-

Rubber sealant

- UDK30**
- creates a flexible connection
 - adheres to moist, smooth surfaces
 - can be painted
 - waterproof
 - Resistance to UV radiation
 - for: metal/ceramics/PVC

S-64830	Skin formation time: 15 to 25 minutes.; Temperature resistance: from -25°C to +100°C.; Application temperature: from +5°C to +40°C.; 280 ml; Clear	1/12	pc	-

Structural wood glue

- KDP51**
- fully waterproof (class D4)
 - strong initial grip
 - excellent adhesion to most substrates
 - quick-drying
 - for indoor / outdoor use
 - rapid curing
 - heavy-duty resistance

S-64851	Time of epidermal formation: ≈8 minutes.; Temperature resistance: from -40°C to +110°C.; Application temperature: from +5°C to +35°C.; 300 ml; Beige colour	1/12	pc	-

Skirting glue

- KDL60**
- strong initial grip
 - excellent adhesion to substrates
 - rapid drying
 - inside/outside
 - resistance to high loads
 - uv resistance
 - for: mouldings/decorations/panels

S-64860	Skin formation time: 10 to 15 minutes. ; Temperature resistance: from -20°C to +75°C.; Application temperature: from +5°C to +40°C.; 280 ml ; Beige colour	1/12	pc	-

Hybrid glue 290 ml

- HEROS**
- whatever
 - instant 2 seconds
 - very high strength 4-30 kg/10cm2
 - indoors/outdoors

S-64845	Time of epidermal formation: 5 minutes. ; Temperature resistance: from -40°C to +90°C.; Application temperature: from +5°C to +30°C.; 290 ml ; White colour	1/12	pc	-

Mirror glue

- KLN57**
- does not react with the surface of mirrors
 - rapid drying
 - Excellent adhesion to building substrates
 - inside/outside
 - fast curing
 - replaces mechanical fixings
 - for: mirrors/glass panels

S-64857	Time of epidermal formation: 7 minutes. ; Temperature resistance: from -50°C to +180°C.; Application temperature: from +5°C to +40°C.; 280 ml ; White colour	1/12	pc	-

Technical chemistry

Universal Cleaner

- Has an excellent cleaning effect
- Leaves no residue
- Protects against re-rusting
- Evaporates quickly

S-64571	500 ml	1/6	pc	-

Crystalline hybrid glue 290 ml

- KHK42**
- crystal clear
 - Excellent adhesion to building materials
 - Chemically inert and odourless, non-corrosive
 - elastic side
 - for use at any time of the year
 - replaces mechanical fixings
 - for: stone/marble/glass

S-64842	Skin formation time: 10 to 20 minutes. ; Temperature resistance: from -40°C to +90°C.; Application temperature: from +5°C to +30°C.; 290 ml ; Clear	1/12	pc	-

Rust Cleaner Mos2

- Has optimal penetration properties
- Perfectly penetrates the sources of rust
- Contains a MoS2 molybdenum connection
- Reduces friction
- Provides optimal protection against corrosion due to the content of enriching additives
- Contains no resin, silicone and acids
- Has an additional lubricating effect

S-64573	400 ml	1/12	pc	-

Multifunctional Spray 5 In 1

- Has very good polishing properties
- Contact agent, providing good protective properties
- Contains no resin, acids and silicone
- Good mutual compatibility with rubber, varnishes and plastics

S-64577	400 ml	1/12	pc	-

Copper Spray

- Thermal resistance 1100°C
- Resistant to water, alkalis and acids, seals well in a corrosive environment
- Prevents the formation of oil deposits at high temperatures
- Provides even friction parameters, protects against seizing
- Permanently adhesive in extreme temperature ranges
- Contains copper pigments that prevent sticking
- Prevents rust and the formation of scale
- Reduces squeaking noises, resistant to high pressure

S-64581	400 ml	1/12	pc	-

Silicone spray

- It has optimum sliding and oiling properties
- Prevents sticking
- Reduces wear on components
- Removes creaking and squeaking noises
- Extremely good thermal resistance from -50°C to +250°C
- colourless
- Good mutual tolerance with other surfaces
- Moisture-resistant
- Protects rubber parts from frost

S-64584	400 ml	1/12	szt.	-

Automotive chemicals

Moss and lichen cleaner for cleaning roofs and facades

MRC OUT

- 1:10 concentrate
- pH level: 07
- purpose: for pressure washers
- A preparation for professional use, for washing and cleaning roofs and façades of algae, mosses and lichens. The formulation protects the cleaned surface for a longer period of time, creating an environment that counteracts the formation of all kinds of micro-organisms.

S-64540	capacity: 1 l	1	pc	-

Concentrate for cleaning cobblestones

CPS OUT

- 1:20 two-phase concentrate
- pH level: 14
- purpose: for pressure washers
- preparation for professional use. Two-component agent. Super powerful concentrate for degreasing and thorough cleaning of paving stones (concrete paving stones) from oil-based soiling such as grease, oils, tarry substances, dirt from operation, fuel, etc.

S-64544	capacity: 1 l	1	pc	-

All-purpose cleaner for roofs, facades and paving stones

RFC OUT

- 1:10 concentrate
- pH level: 14
- purpose: for pressure washers
- for professional use, for cleaning façades and roofs from tarry dirt (soot), dirt of organic origin (plants, insects, excrement, decay processes) and oil-based dirt. For cleaning the lower parts of cars (below the handle line). Removes road dirt, dirt from operation and brake pad deposits.

S-64560	capacity: 1 l	1	pc	-

Touchless active foam for passenger cars

AF CAR

- 1:100 two-phase concentrate
 - pH level: 14
 - purpose: for pressure washers
 - preparation for professional use.
- Distinguished by its high content of softening compounds, which makes it much easier to work with hard water.

S-64548	capacity: 1 l	1	pc	-

Agent for cleaning rims from deposits, dirt, tarry substances

RR CAR

- professional, pH-neutral agent for the removal of metallic impurities from the surface of car wheels
- pH level: 07
- for alloy, chrome-plated, and lacquered rims

S-64564	capacity: 1 l	1	pc	-

Touchless active foam for trucks

AF TRUCK

- 1:100 two-phase concentrate
 - pH level: 14
 - purpose: for pressure washers
 - for cleaning heavily soiled, alkaline-resistant hard surfaces.
- Recommended for cleaning machinery and equipment in the automotive and heavy industry, as well as in agriculture.

S-64552	capacity: 1 l	1	pc	-

Health and safety pastes and creams

Hand Washing Paste

NEW

- A mild, creamy paste for washing moderately to heavily soiled hands with natural abrasives.
- Gentle on sensitive and damaged skin, it cares for and regenerates the skin, leaving the hands feeling soft and cared for.
- It moisturises the skin thanks to its natural lipids, making it suitable for daily use without adverse effects on the skin.
- Dermatologically approved skin compatibility.
- Plastic-free paste.

S-64961	250 ml ; Dermatologically approved	1	pc	-

Neutral foam for passenger cars

NF CAR

- 1:10 concentrate
 - 1:100 concentrate
 - pH level: 07
 - purpose: for pressure washers
 - preparation for professional use.
- Highly concentrated pH-neutral, dense foam that is safe for all surfaces of your car.

S-64556	capacity: 1 l	1	pc	-

Fall protection

Safety Harness

Grekon

- perfect fit thanks to the buckles that allow adjusting the leg straps
- dorsal catch located at the crossing of risers

S-79085	black and gray	1/10	pc	-

Safety Rope With Hook

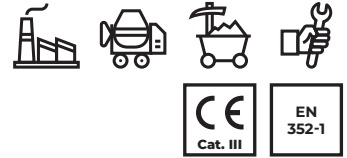

Grey

- Strong, polyamide rope, 33 mm thick
- fall-absorbing element
- a hook and a clip hook attached to the harness

S-79086	black	1/10	pc	-

Hearing protection

Ear muffs

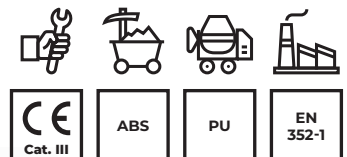

Shark

- dielectric design enables use in virtually any working environment
- even headband pressure provides equal comfort for heads of all sizes
- internally ventilated pillow facilitates air exchange, which is especially useful in warm and humid climates
- non-deformed headband resistant to deformation during use
- the Quick-Click height adjustment system remains locked during use
- slip-in cushions allowing quick replacement and easy maintenance
- noise suppression levels: SNR=34dB, H=3dB, M=31dB, L=25dB
- they do not isolate the worker from their environment, which improves overall safety

S-78440	one size	1/20	pc	-

Noise protection earmuffs

Shark H

- highly effective SHARK H earmuffs provide the best protection in any noisy environment (shooting, hunting, manual work, gardening, science, music rehearsal, etc.)
- High sound attenuation - 34 dB
- Highly flexible and durable headband
- Reflective safety tape
- comfortable and lightweight
- Soft ear cushions
- metal-free

- connection with female thread with reduction 1/2" - 3/4"

S-80489	4 elements	1/50	pc	-

4-Element Set With A Basic Sprinkler 3/4"

- ABS plastic
- simple, adjustable sprinkler
- through quick coupler 3/4"
- quick coupler with stop 3/4"
- connection with female thread with reduction 3/4" - 1"

S-80492	4 elements	1/50	pc	-

Other garden equipment

Hose Cart Solid 60

- light steel structure
- high-quality plastic
- ergonomic crank
- large wheels
- easy to assemble

Icon	Info	Box	Spools	Cart
S-80234	1/2" - 60m ; 5/8" - 45m ; 3/4" - 30m	1/3	pc	-

Garden Hose

- UV-resistant
- weather-resistant
- operating temperature range: -5°C to +30°C
- maximum pressure: 25 bar
- black slug – prevents the growth of algae
- No Twist System – a system preventing the hose from twisting
- contains no cadmium, barium or lead
